TITLE	AUTHOR (S)	TYPE	CATEGORY	DESCRIPTION
ABC's of Autism, The	M. Davi Kathiresan for the Autism Society of Michigan	Book	General Autism	<p>theory and concepts from Applied Behavior Analysis (ABA) into practical and comprehensive educational programming, from assessment through methodology and evaluation.</p> <p>This short book was written to educate families, children, and professionals. Its unique format uses the letters of the alphabet, A to Z, to introduce autism in a positive and informative manner and provide a meaningful reference book in an inclusive school classroom.</p>
Accessing the Curriculum for Pupils with Autistic Spectrum Disorders: Using the TEACCH Programme to Help Inclusion	Gary Mesibov & Marie Howley	Book	Program Design	<p>This book explains ways to enable students with autism spectrum disorders to access the curriculum in a meaningful way by using the principles behind the intervention technique called "Structured Teaching". Practical strategies to facilitate this process are included.</p>
Accommodations in Higher Education Under the Americans with Disabilities Act	ed by Michael Gordon, Ph.D. & Shelby Keiser, MS	Book	Program Design	<p>This practical manual offers essential information and guidance for anyone involved with ADA issues in higher education settings. Fundamental principles and actual clinical and administrative procedures are outlined for evaluating, documenting, and accommodating a wide range of mental and physical impairments. Included are helpful diagnostic roadmaps, sample reports, and resource listings.</p>
Activities for Developing Pre-Skill Concepts in Children with Autism	Toni Flowers	Book	Strategies/Curriculum	<p>This book includes chapters on auditory development, concept development, social development, speech and language development, and visual-motor integration.</p>
Activity Schedules for Children with Autism	Lynn McClannahan, Ph.D. & Patricia Krantz, Ph.D.	Book	Strategies/Curriculum	<p>This book provides information on how parents and professionals can utilize schedules to promote independence in a variety of settings and activities. Examples and instructions will help readers with assessment, preparation of schedules, monitoring progress, and expanding social skills.</p>
Addressing the Challenging Behavior of Children with High-Functioning Autism/Asperger Syndrome in the Classroom: A Guide for Teachers and Parents	Rebecca A. Moyes	Book	Behavior	<p>This book provides possible explanations for some of the behaviors children with autism may exhibit, so that teachers and parents can design positive behavior support plans that are individualized and effective. Teachers learn how to create environmental supports and to incorporate specific teaching strategies to address target areas of development.</p>
Adolescents on the Autism Spectrum: A Parent's Guide to the Cognitive,	Chantal Sicile-Kira	Book	General Autism	<p>This practical guide offers parents strategies for helping their children, whatever their ability level, through the</p>

TITLE	AUTHOR (S)	TYPE	CATEGORY	DESCRIPTION
Social, Physical, and Transition Needs of Teenagers with Autism Spectrum Disorders				physical and emotional changes of the teenage years and preparing them for adulthood. Invaluable help and guidance for both parents and professionals.
ADHD Autism Connection, The: A Step Toward More Accurate Diagnosis and Effective Treatment	Diane M. Kennedy	Book	General Autism	Autism and attention deficit hyperactivity disorder (ADHD) are two of the most rapidly growing diagnoses of our generation. This book provides insight into the overwhelming number of similarities between autism and ADHD.
Al Capone Does My Shirts	Gennifer Choldenko	Book	Children's Book (Junior Fiction)	This humorous junior novel was selected as a 2005 Newbery Honor Book 2005. Moose Flannagan moves with his family to Alcatraz so his dad can work as a prison guard and his sister Natalie, who has autism, can attend a special school. But when Natalie is denied admittance to the school, the tenuous coping mechanisms the family has used for dealing with her disorder begin to unravel. Primarily for grades 6-8, it will also be appreciated by adults.
Albert Einstein	Ibi Lepscky	Book	Children's Book	This book, written for children ages 4-8, tells the true story of Albert Einstein's childhood. This is a wonderful resource to help children understand Asperger's Syndrome and illustrate how children who are perceived to be "different" can grow up to make wonderful contributions to society as an adult.
All About My Brother	Sarah Peralta	Book	Children's Book	In this charming picture book, eight-year-old Sarah Peralta gives us insights into the world of her non-verbal younger brother with autism. This book is an invaluable contribution to helping typically developing children understand children with autism.
Amazingly Alpie! Understanding and Accepting Different Ways of Being	Roz Espin	Book	Children's Book	A book is a powerful learning tool that speaks directly to children who are trying to understand why children with special needs are they way they are. A must read for all teachers and their students and -most of all- parents.
Andy and His Yellow Frisbee	Mary Thompson	Book	Children's Book	A colorfully illustrated children's book that will help siblings and other children understand the world of children with autism. A new girl at school tries to befriend Andy, an autistic boy, who spends every recess by himself spinning a yellow Frisbee.
Animals in Translation: Using the Mysteries of Autism to Decode	Temple Grandin and Catherine Johnson	Book	Research	This fascinating and compelling book provides brilliant insights into the way animals and autistic people perceive

Autism Outreach Project Resource Library: Books and Kits

TITLE	AUTHOR (S)	TYPE	CATEGORY	DESCRIPTION	
Animal Behavior				the world. The author's professional training as an animal scientist and her history as a person with autism have given her a unique and unparalleled perspective. This book will be enjoyed by animal lovers and people lovers alike.	
Answers to Questions Teachers Ask About Sensory Integration	Carol Stock Kranowitz, et al	Book	Sensory	An extensive and easy-to-use set of checklists and other tools that are invaluable to every teacher and parent who has children with sensory integration challenges.	
Apprenticeship in Thinking: Cognitive Development in Social Context	Barbara Rogoff	Book	Research	Essential reading for those wanting to understand the role of social context in cognitive development. Overview of an experimental research program and observation studies which addressed the developing child as a social being.	
Aquamarine Blue 5: Personal Stories of College Students with Autism	Edited by Dawn Prince-Hughes	Book	Personal Account	This book details the struggles and challenges of highly sensitive autistic college students. An array of writing by students who have been diagnosed with Asperger's Syndrome or High-Functioning Autism is presented, showing their unique ways of looking at and solving problems.	
Arnie and His School Tools: Simple Sensory Solutions That Build Success	Jennifer Veenendall	Book	Children's Book/Sensory	This illustrated children's book is about an exuberant little boy who had difficulty paying attention in class and doing his school work until he was equipped with the tools to accommodate his sensory needs. An engaging way to introduce elementary students to basic sensory tools used to help children focus in classroom settings, such as fidgets, chewy pencil toppers, and weighted vests.	New
Artist Within, The: Ideas for Fostering Creativity in People with Autism	Barbara Bianco, Chapel Hill TEACCH Center	Booklet	Strategies/Curriculum	This booklet is a resource to help parents and teachers begin to incorporate arts and crafts activities into the lives of individuals with autism. The ideas and activities presented have all been field tested by people with autism, and show that arts and crafts can be easy, fun, and rewarding. Directions are streamlined and easy to follow.	
Ask and Tell: Self-Advocacy and Disclosure for People on the Autism Spectrum	Edited by Stephen M. Shore	Book	General Autism	This book gives a clear presentation on why people on the autism spectrum need to become their own advocates and offers accounts from a wide variety of persons who have wrestled with this issue. Each chapter offers a new look at the issue of disclosure and provides step-by-step instructions on why and how best to disclose.	
Asperger Marriage, An	Gisela & Christopher Slater-Walker	Book	High Funct/Aspergers	This book examines the relationship between two people, one of whom has been diagnosed with Aspergers	

Autism Outreach Project Resource Library: Books and Kits

TITLE	AUTHOR (S)	TYPE	CATEGORY	DESCRIPTION
Asperger Parent, The: How to Raise a Child with Asperger Syndrome and Maintain Your Sense of Humor	Jeffrey Cohen	Book	Family Issues	<p>Syndrome. It provides valuable knowledge not only to individuals with Asperger Syndrome who are considering a relationship, but also to professionals and anyone working with people with relationship difficulties.</p> <p>Cohen looks at the emotions and day-to-day experiences associated with being a parent of a child with Asperger's Syndrome with a sense of humor and honesty. With an easy-to-read, anecdotal tone, this book provides information and support without being clinical or dry.</p>
Asperger Syndrome	ed by Ami Klin, Ph.D., Fred Volkmar, MD, & Sara Sparrow, Ph.D.	Book	High Funct/Aspergers	<p>This book is a comprehensive guide to Asperger Syndrome. The chapters are in depth and cover issues such as diagnosis, treatment, intervention adolescence, and adulthood.</p>
Asperger Syndrome: A Guide for Educators and Parents	Brenda Smith Myles & Richard L. Simpson	Book	High Funct/Aspergers	<p>This book will be easily understood by both parents and professionals and provides information that helps explain this syndrome and its relation to autism. Chapters include: definitions and characteristics; assessment; academic supports; social enhancement and behavioral management methods; transition; and the impact on families.</p>
Asperger Syndrome: A Practical Guide for Teachers	Val Cumine, Julia Leach and Gill Stevenson	Book	Strategies/Curriculum	<p>This is a clear and concise guide to effective classroom practice for teachers and support assistants working with children with Asperger Syndrome. The book seeks to inform professionals meeting a child with Asperger Syndrome for the first time and to equip them with effective educational and behavioral intervention strategies.</p>
Asperger Syndrome: An Owner's Manual – What You, Your Parents, and Your Teachers Need to Know	Ellen S. Heller Korin, M.Ed.	Book	High Funct/Aspergers	<p>This interactive workbook is designed to help young people, approximately 5th to 8th grade, develop their Personal Profile. With the help of a trusted adult, the child completes a series of exercises related to learning style, sensory issues, emotions, relationships, and more, culminating in a written plan for each major area of life.</p>
Asperger Syndrome: An Owner's Manual 2 – For Older Adolescents and Adults	Ellen S. Heller Korin, M.Ed.	Book	High Funct/Aspergers	<p>This interactive workbook is designed to assist users in identifying their unique profiles in order to devise appropriate and customized interventions and strategies.</p>
Asperger Syndrome and Adolescence	Teresa Bolick, Ph.D.	Book	High Funct/Aspergers	<p>In this book, Dr. Bolick addresses the challenges faced by older children with Asperger Syndrome. Packed with practical advice and inspiring stories, this book can easily be utilized by parents, educators, and therapists guiding</p>

TITLE	AUTHOR (S)	TYPE	CATEGORY	DESCRIPTION
Asperger Syndrome and Adolescence: Practical Solutions for School Success	Brenda Smith Myles & Diane Adreon	Book	High Funct/Aspergers	teens with AS down the path toward happiness and success. An excellent book that fills a long-standing need. The authors present an excellent overview of the challenges that many learners with AS face as they enter their teens. They offer an array of practical, proven interventions to help address these challenges.
Asperger Syndrome and Difficult Moments: Practical Solutions for Tantrums, Rage and Meltdowns	Brenda Smith Myles	Book	High Funct/Aspergers	This book provides a wealth of information for parents and professionals who work with children with Asperger Syndrome. The authors discuss how stress can manifest itself within people with AS, building to the point of "rage" at school or home. The authors thoroughly discuss what things to look for in school and at home, the "rage cycle," and strategies for promoting self-awareness.
Asperger Syndrome and the Elementary School Experience: Practical Solutions for Academic & Social Difficulties	Susan Thompson Moore, M.Ed.	Book	Strategies/Curriculum	Practical solutions for addressing the academic and social needs of elementary-aged children with Asperger Syndrome. Lots of forms, checklists and other visuals make these helpful ideas easy to implement.
Asperger Syndrome and Sensory Issues: Practical Solutions for Making Sense of the World	Brenda Smith Myles, et al.	Book	High Funct/Aspergers and Sensory	This book is filled with practical advice for analyzing sensory processing difficulties. Individuals with Asperger Syndrome, their families, and professionals will find this book helpful in designing environmental adaptations and intervention strategies that enable individuals to be more successful.
Asperger Syndrome and Young Children: Building Skills for the Real World	Teresa Bolick, Ph.D.	Book	High Funct/Aspergers	In a user-friendly style, the author provides practical strategies for all those working with and caring for three to seven year olds with Asperger Syndrome. She provides insight into the complex social and emotional needs of these young children and offers solutions that are based on sound developmental principles.
Asperger Syndrome Employment Workbook	Roger N. Meyer	Book	Transition/Vocation	This practical manual will enable people diagnosed with Asperger Syndrome and high functioning autism to deepen their self-understanding and appreciate their value as working individuals. Through step-by-step self-assessment, the reader is encouraged to identify the work best suited to their personal needs, talents, and strengths.
Asperger Syndrome in Adolescence: Living with the Ups, the Downs, and Things in Between	ed by Liane Holliday Willey	Book	High Funct/Aspergers	Reflecting the views of parents, professionals, and those with AS themselves, this book tackles issues such as sexuality, depression, and friendship. It is an essential

TITLE	AUTHOR (S)	TYPE	CATEGORY	DESCRIPTION
Asperger Syndrome in the Inclusive Classroom: Advice and Strategies for Teachers	Stacey W. Betts, Dion E. Betts, & Lisa N. Gerber-Eckard	Book	Strategies/Curriculum	survival guide to adolescence. Based on the successful experiences of classroom teachers, and written from a teacher's perspective, this book provide creative and easy-to-apply strategies that support and encourage AS students in the mainstream classroom.
Asperger Syndrome or High-Functioning Autism?	ed by Eric Schopler, Ph.D., Gary Mesibov, Ph.D., & Linda Kunce, Ph.D.	Book	High Funct/Aspergers	The relationship between high-functioning autism and Asperger's remains a subject of debate and confusion. In this book, leading scientists present varying opinions on the subject. Topics include an overview of the current state of the field; diagnostic, assessment, and treatment issues; related conditions; and neuropsychology issues.
Asperger's and Girls	Tony Attwood, Temple Grandin, & others	Book	High Funct/Aspergers	Here is a book that provides up-to-date information about girls and women with Asperger's Syndrome. Covering topics such as diagnoses, education, puberty, relationships, and careers, experts in the field share practical advice for both caregivers and the girls affected by Asperger's.
Asperger's and Self-Esteem: Insight and Hope Through Famous Role Models	Norm Ledgin	Book	General Autism	In this amazing book, the author evaluates famous role models, such as composer Amadeus Mozart, astro-physicist Carl Sagan, evolutionist Charles Darwin, and others. As successful individuals who evidenced the characteristics of autism/Asperger's syndrome, they become role models in an entirely different way.
Asperger's Huh? A child's perspective	Rosina G. Schnurr	Book	Children's Book	Simple, delightful view into the world of a child with Asperger's. Parents, children, teachers and other professionals will benefit from the practical and positive approach of this book.
Aspergers in Love	Maxine Aston	Book	High Funct/Aspergers	Comparing and contrasting both Asperger and non-Asperger partners' viewpoints, this book frankly examines the fundamental aspects of relationships that are often complicated by the condition. It is a must for all those in a relationship where one partner has AS, as well as for friends, family, and professionals.
Asperger's Syndrome: A Guide for Parents and Professionals	Tony Attwood	Book	High Funct/Aspergers	Provides an overview and analysis of the unusual characteristics of Asperger's Syndrome. Attwood also offers strategies to reduce the most debilitating characteristics of this syndrome. Attwood incorporates case studies and questions from individuals with Asperger's while discussing such topics as language, social behavior,

Autism and Play	Jannik Beyer & Lone Gammeltoft	Book	Strategies/Curriculum	Parents and professionals are provided with specific ideas for planning play activities. Low-functioning children with autism can also benefit from play activities described by the authors in this book. This book describes different play sequences which encourage the integration of social, emotional, and cognitive development. The strategies focus on visualizing, imitation, mirroring, and taking turns.
Autism and Sensing: The Unlost Instinct	Donna Williams	Book	General Autism	Explains how the senses of a person with autism work, suggesting that they are "stuck" at an early development stage common to everyone. The author calls this the system of sensing, claiming that most people move on to the system of interpretation, which enables them to make sense of the world. This book provides a fascinating insight into the way that people with autism perceive the world.
Autism and the Crisis of Meaning	Alexander Durig	Book	General Autism	Presents a systematic way of understanding the logic of meaningful perceptions in everyday life. Working from concepts of formal logic and logical inferencing, the author suggests that informal logics of social inferencing may address part of the way we organize our perceptions in social life. The social inferencing theory of meaningful perception is shown to entail a theory of autistic perception.
Autism as an Executive Disorder	ed by James Russell	Book	Research	Autism continues to fascinate researchers because of its debilitating effects and its complex nature and origins. Contributors to this book present arguments that autism is primarily a disorder of "executive functions", those involved in the control of action and thought. The book provides a new and controversial perspective from some of the leading researchers in this field.
Autism: Decade of the Brain	National Institute of Mental Health	Book	General Autism	This booklet published by the National Institute of Mental Health provides an overview of Autism, accompanying disorders, and ways to find help and hope.
Autism: Explaining the Enigma	Uta Frith	Book	General Autism	According to the book, it is the first to present a satisfactory psychological account of what happens in the autistic mind. "This book...may go a long way towards an explanation of the nature of autism." -- Professor Michael Rutter, Institute of Psychiatry, London.
Autism: From Tragedy to Triumph	Carol Johnson & Julia Crowder	Book	Personal Account	This book deals with the Lovaas method and includes a foreword by Dr. Ivar Lovaas. The book is broken down

Autism: Handle with Care	Gail Gillingham	Book	General Autism	into two parts - the long road to diagnosis, then treatment. "In this book, Julia Crowder describes her efforts in the treatment and education of her son," says Ivar in the foreword.
Autism: Handle with Care	Gail Gillingham	Book	General Autism	This book is a well-written manual for understanding the autistic person in one's home or classroom. Gail Gillingham quotes autistic individuals as they explain autism and helps the reader understand the perceptual differences in people with autism. She gives practical advice and helps to dispel many of the myths surrounding the autism diagnosis.
Autism: Identification, Education, and Treatment	Dianne Berkell	Book	Medical	Chapters include medical treatment in autism by Luke Tsai, early intervention for children with autism by Michael Powers, and facilitating language and communication development in autism by Amy Wetherby and Barry Prizant.
Autism in Adolescents & Adults	ed by Eric Schopler & Gary Mesibov	Book	Transition/Vocation	The authors survey the needs, problems, and services for autistic adolescents and adults. They consider problems with language, education, recreation, vocational training, medical needs, sex education, and the management of aggression as well as family perspectives, legal needs, and residential and community-based services.
Autism in Your Classroom: A General Educator's Guide to Students with Autism Spectrum Disorders	Deborah Fein, Ph.D. & Michelle A. Dunn, Ph.D.	Book	General Autism	This comprehensive handbook provides practical information and guidance for general education teachers to turn to in order to teach and support their students with autism spectrum disorders.
Autism: Information and Resources for Parents, Families, and Professionals, 2nd edition	Richard Simpson & Paul Zions	Book	General Autism	Particularly useful for its carefully researched, concise question-and-answer format. Chapters include causes of autism; identification and assessment; problems and needs of children and youth with autism; sources of assistance; treatment and interventions; language interventions; parents and families of children and youth with autism: strategies for support, management, and involvement; and resources for autism and pervasive developmental disorders.
Autism: Nature, Diagnosis and Treatment	Geraldine Dawson	Book	General Autism	Contributors include Gary Mesibov and Mary Van Bourgondien of TEACCH, as well as Barry Prizant, Lorna Wing, Eric Courchesne, Greg Olley, and others. Foreword by Eric Schopler of TEACCH. Topics include genetic influences, pharmacological treatment, motivating language

Complete IEP Guide, The: How to Advocate for Your Special Ed Child	Lawrence M. Siegel	Book	IEP	<p>from Attwood's extensive clinical experience, and from his correspondence with individuals with AS, this book is both authoritative and extremely accessible.</p> <p>This comprehensive manual covers everything a parent needs to know when preparing for an Individualized Education Plan for their child. Included are sections on understanding special education law and the IEP process, getting organized, assessments and eligibility, exploring options, defining the child's needs, developing goals and objectives, preparing for and attending IEP meetings, and resolving disputes.</p>
Comprehensive Autism Planning System (CAPS) for Individuals with Asperger Syndrome, Autism, and Related Disabilities	Shawn Henry & Brenda Smith Myles	Book	Strategies/Curriculum	<p>This comprehensive, easy-to-use system allows educators to understand how to implement an instructional program for students with autism spectrum disorders (ASD). The CAPS model answers the questions (a) What supports does my student/child need in each class to be successful? (b) What goals is my student/child working on? and (c) Is there a thoughtful sequence to my students/childs day that matches his learning style. This resource addresses adequate yearly progress (AYP), response to intervention (RTI), and positive behavior support (PBS) in a common-sense format. The structure of this tool ensures consistent use of supports and data collection to measure success.</p>
Cradle of Thought, The: Exploring the Origins of Thinking	Peter Hobson	Book	Research	<p>In this fascinating, immensely readable, and thought-provoking book, the author shows how very early engagement with others fosters the child's growth out of the cradle of infancy and into the realm of human thought and culture. Drawing on twenty years of clinical experience and academic research, he follows the thread of mental development over the first eighteen months of a baby's life to describe and to explain the emergence of thinking.</p>
Creating a WIN-WIN IEP for Students with Autism	Beth Fouse, Ph.D.	Book	IEP	<p>A "must read" for every parent and educator who participates in the IEP process. Includes legal case studies, targeting students needs, state and federal regulations, parent's rights, behavioral perspectives, teacher's legal responsibilities, resolving conflict, common mistakes parents make, and more.</p>
Crossing Bridges	Viki Satkiewicz-Grayhardt, Barbara Peerenboom &	Book	General Autism	<p>Written by mothers whose children have been diagnosed with autism/PDD and related disorders, this paperback is</p>

TITLE	AUTHOR (S)	TYPE	CATEGORY	DESCRIPTION	
Diagnosing Jefferson	Norm Ledgin	Book	General Autism	In this fascinating book, the author contends (with confirmation by a number of scientific authorities) that Jefferson's characteristics were compatible with Asperger's Syndrome. Norm Ledgin matches high-functioning autism with many examples of Jefferson's behavior, evidence furnished by-but never examined by-the historians themselves.	
Different Like Me: My book of Autism Heroes	Jennifer Elder	Book	Children's Book	This book introduces children ages 8 to 12 to inspirational famous and historical figures including Albert Einstein, Dian Fossey, Lewis Carroll, among others. All excel in their own particular fields but are united by the fact that they, too, often found it difficult to fit in. It is a valuable resource for children, parents, teachers, caregivers, and siblings.	
Discovering My Autism	Edgar Schneider	Book	Personal Account	This book is another first-person account by a high-functioning person with autism. Schneider recounts his early years and the challenges he faced growing up. He also comments on his successes, including the arts, religion, and the availability of a supportive group of involved people.	
Do-Watch-Listen-Say: Social and Communication Intervention for Children with Autism	Kathleen Quill	Book	Communication	Educators and speech language pathologists will find this book to be a practical, user-friendly resource for methods needed to build social and communication skills in children with autism. The activities are readily adaptable to develop a curriculum for both children who are verbal and those who use augmentative and alternative communication. This specially-bound book is made to lay flat for easier copying and can be used in the school or home.	
Early Intervention & Autism: Real-Life Questions, Real-Life Answers	James Ball, Ed.D., BCBA	Book	Family Issues	Hands-on tools and strategies for parents to start working with a newly diagnosed child with autism. In an easy-to-read, question-answer format, the author explains what makes your child tick, how to get the most out of early intervention services, and how to choose the most effective treatment options.	New
Early Start for Young Children with Autism/PDD: Practical Interventions	Kathleen McConnell & Gail R. Ryser	Book	Strategies/Curriculum	This book was written to provide teachers, parents, interventionists, therapists, and caregivers with intervention strategies for young children, ages 2 through 5, with autism or another pervasive developmental disorder. Ideas presented are easy and practical to implement.

TITLE	AUTHOR (S)	TYPE	CATEGORY	DESCRIPTION
Eating an Artichoke: A Mother's Perspective on Asperger Syndrome	Echo Fling	Book	Personal Account	This is the perfect book for any parent facing Asperger's Syndrome. This mom gives a detailed description of her everyday struggles, but also gives some creative strategies for working with Asperger individuals.
Educating Children and Youth with Autism	Brenda Myles & Richard Simpson	Book	General Autism	This book was written to provide educators, caregivers, and parents current information on autism and pervasive developmental disorders. In addition to the overview by Simpson and Myles, numerous contributors provide information on assessment, instruction, behavior management, communication, social interactions, sensory integration, inclusion, transition, and medical interventions.
Educating Children with Autism	National Research Council	Book	General Autism	An excellent resource, this book outlines an interdisciplinary approach to education for children with autism. The NRC explores what makes education effective for the child with autism and identifies specific characteristics of programs that work. Recommendations are offered for educational content and strategies, interaction with other children, and other key topics.
Effectiveness of Early Intervention, The	Michael J. Guralnick	Book	General Autism	This book is enormously encouraging and inspiring, sharing how much more effective assistance is now available for children and families for enhanced development and quality of life. It provides a great deal of the research which has been done in the field of early intervention.
Effects of Autism on the Family	ed by Eric Schopler & Gary Mesibov	Book	Family Issues	Professionals focus on parent-professional collaboration in the treatment of autistic and communication-handicapped children -- explaining techniques for dealing with parents as co-therapists and primary agents in the development of their child.
Embarrassed Often Ashamed Never	Lisa B. Elliott	Book	Personal Account	Quips and short stories from one family's ongoing adventure with Asperger syndrome and autism.
Emergence: Labeled Autistic	Temple Grandin	Book	Personal Account	This first-person account by one of the country's most well-known authors with autism gives readers a remarkable look inside Temple Grandin's life experiences. An astonishing story, a chronicle of perseverance, courage, and the loving wisdom of a few adults who saw in Temple the possibilities of reaching her true potential, this book will give new hope and insight into the potential of the human spirit.

Emotional Development: The Organization of Emotional Life in the Early Years	L. Alan Sroufe	Book	Research	This book reveals the common core processes underlying the emergence of specific emotions and the capacity for emotion regulation. It explains the timing of emotional emergence, why emotions function as they do and also explores individual styles of emotional regulation. Ties between emotional, cognitive, and social development are discussed.
Engaging Autism: Using the Floortime Approach to Help Children Relate, Communicate, and Think	Stanley I. Greenspan, M.D. & Serena Wieder, Ph.D.	Book	Program Design	Dr. Greenspan's DIR/Floortime program is presented in this clear and accessible volume for parents, professionals, and anyone involved in the care of children with ASD. Topics covered in this valuable book include improving the prognosis of ASD; how families can use the DIR model to promote relating, communicating and thinking; Floortime; assessment and intervention: the DIR model; and overcoming difficult symptoms.
Enhancing Communication in Individuals with Autism Through the Use of Pictures and Word Symbols	Michelle Winner (IRCA)	Book	Communication	Addresses the philosophy, description, and implementation of visually-aided communication, including communication boards and computers, eye gaze, manual signs, and gestures.
Estate Planning for Families of Persons with Disabilities	Susan Hartley, John Stewart, & Margo Tesch	Book	Family Issues	Designed to assist families of individuals with disabilities in planning for the future. The information provided may also be useful to attorneys, advocates, and others interested.
Exiting Nirvana: A Daughter's Life with Autism	Clara Claiborne Park	Book	Personal Account	In this moving memoir which continues the classic work "The Siege", an account of the early years of her autistic daughter Jessy's life, the author gives an eloquent portrait of Jessy as an autistic adult-still struggling with language, hypersensitivities and obsessions, and social interactions, but at the same time achieving more than her parents could have hoped for, becoming an accomplished artist and growing into an active member of her community.
Everyday Solutions: A Practical Guide for Families of Children with Autism Spectrum Disorders	Mindy Small, M.A. & Lisa Kontente, ACSW	Book	Family Issues	This book is full of helpful suggestions, teaching and support for caregivers of individuals with ASD. Professional experience combined with the practical knowledge of parents has produced a true godsend for families of children with autism. This manual gives parents the tips they need to tackle simple tasks that parents of typically developing children take for granted.
Everything You Need to Know When	Marsha Rosenberg	Book	Family Issues	This wonderful book for children ages 10 and up is a must

Finding Out About Asperger Syndrome, High Functioning Autism and PDD	Gunilla Gerland	Book	General Autism	both the parents looking for help and the professionals working with these families. This book is written for children and teenagers who have Asperger Syndrome, High Functioning Autism, and PDD by an adult with Asperger's. It is an excellent resource for young people seeking to better understand their disability.
First Relationship, The: Infant and Mother	Daniel N. Stern	Book	Research	Daniel Stern's video-based research into the intimate complexities of mother-infant interaction has had an enormous impact on psychotherapy and developmental psychology. His minute analyses of the exchanges between mothers and babies have offered empirical support and correction for many theories of development. In the complex and instinctive choreography of "conversations," including smiles, gestures, and gazing, Stern discerned patterns of emotional harmony and incongruity that illuminate children's relationships with others in the world.
Floor Time: Tuning In To Each Child	Stanley Greenspan, M.D.	Book/Kit	Strategies/Curriculum	A professional development program from the publishers of PRE-K TODAY magazine, based on the work of Stanley Greenspan, renowned child psychiatrist and early childhood consultant. This program includes a videotape, developmental chart, professional guide, reproducible parent/teacher handouts, and original source material.
For Parents, By Parents: A Resource Guide	Parent Network of Interdisciplinary Council of Developmental and Learning Disorders	Book	Family Issues	This resource guide was written by the parent committee of the Interdisciplinary Council on Developmental and Learning Disorders (ICDL). to aid parents as they search for assistance for their special needs children. The 2003 edition contains seven tabbed sections : Overview, Therapeutic Approaches, Biomedical Interventions, Sensory Processing, Educational Interventions, Law and Advocacy and Glossary.
Freaks, Geeks & Asperger Syndrome: A User Guide to Adolescence	Luke Jackson	Book	General Autism	A book for adolescents with Asperger Syndrome, written by a thirteen-year-old who has a diagnosis of Asperger Syndrome. This book will enhance understanding, change attitudes and replace despair with insight and laughter. Luke's book gives guidance on bullying, friendships, when and how to tell others about AS, problems at school, dating and relationships, and morality.
Freeing your Child from Obsessive-	Tamar E. Chansky, Ph.D.	Book	Family Issues	Many children diagnosed with an autism spectrum disorder

Autism Outreach Project Resource Library: Books and Kits

TITLE	AUTHOR (S)	TYPE	CATEGORY	DESCRIPTION
Compulsive Disorder				also have a co-morbid diagnosis of obsessive-compulsive disorder (OCD). The author, a leading psychologist who specializes in childhood OCD, wrote this handbook with the goal of creating a parent's roadmap to OCD and its complexities. This valuable resource provides much-needed information including understanding OCD, diagnosis and treatment options, and how to tailor treatment to your child's needs. In addition to the practical, step-by-step guidelines, the book is also filled with inspiring words from Dr. Chansky and the children with whom she has worked.
Friendship Factor, The	Kenneth H. Rubin, Ph.D.	Book	Social Skills	Based on twenty-five years of research on friendship, Dr. Kenneth H. Rubin reveals the importance of healthy social development to a child's emotional and intellectual growth. This book uses vivid case studies to highlight normal social development, potential problems, and real distress. A must read for parents and professionals who work with all children including those children who struggle to understand the social world that surrounds them.
From Emotions to Advocacy: The Special Education Survival Guide	Pam Wright & Pete Wright	Book	IEP	This practical, user-friendly book will teach you how to plan, prepare, organize, and get quality special education services. You will learn about your child's disability and educational needs, creating a method for organizing your child's file, devising a master plan, strategies to improve meeting outcomes, writing smart IEP goals, resolving parent-school conflict, negotiating for special education services, and more. A must-have resource for any parent of a child with a disability.
Functional Behavior Assessment for People with Autism: Making Sense of Seemingly Senseless Behavior	Beth A. Glasberg, Ph.D.	Book	Behavior	This practical guide offers parents and teachers an invaluable tool to understanding troubling behaviors in people with autism spectrum disorders (ASDs): functional behavior assessment (FBA). The author presents the underlying principles of FBA and how to complete an assessment of problem behavior independently.
Getting the Best for Your Child with Autism: An Expert's Guide to Treatment	Bryna Siegel, Ph.D.	Book	Family Issues	One of the world's leading authorities on autism guides parents through the complex maze of treatment options. She shows how to obtain an accurate assessment of a child's strengths and weaknesses, and then provides step-by-step guidance to help parents develop a plan of action tailored to their child's individual learning style, verbal

New
Good Kid Book, The: How to Solve the 16 Most Common Behavior Problems	Howard N. Sloane	Book	Behavior	This book, written by a clinical psychologist and professor in the Department of Educational Psychology at the University of Utah, offers specific programs to help parents who have immediate needs with their children. Most of the programs can be used in a variety of situations, and can be carried out by parents themselves.	
Goodenoughs Get in Sync, The	Carol Stock Kranowitz	Book	Children's Book/Sensory	This great new book tells the story of five family members and their naughty dog (each with a different sensory processing challenge) and how they get in sync after a tough day. Although it is designed for eight-to-twelve year olds to help them understand how their senses develop, adults will also find it valuable as explanations of sensory processing disorder are woven throughout the story.	
Growing Towards Independence by Learning Functional Skills and Behaviors	Barbara Porco (Indiana Resource Center for Autism)	Booklet	General Autism	This booklet explains the philosophy of the Indiana Resource Center for Autism (IRCA) which states that priorities of what and how to teach skills to persons with autism should be established on the basis of functionality.	
Growing Up: A Social and Sexual Education Picture Book for Young People with Mental Retardation	Victoria Shea, Ph.D., Betty Gordon, Ph.D., University of North Carolina at Chapel Hill	Loose-leaf book	Social Skills	This illustrated manual was designed to help parents and educators teach students with developmental disabilities about issues of sexuality and social behavior with their children or students. The manual is intended for children aged 12 years or older and uses explicit illustrations and descriptions in order to be clear. The loose-leaf format allows parents or teachers to remove pages they do not wish to use.	
Growing Up Severely Autistic	Kate Rankin	Book	Personal Account	Gabriel is a teenager who is severely autistic: he is completely unsocialized, is incontinent and is unable to speak. In this book, his mother, with great honesty, describes what it is like to bring up an autistic child who requires constant care and exhibits challenging behavior. With affection and humour, she has written a personal and intimate study of someone who is very different from those

Guide to Successful Employment for Individuals with Autism	Smith Belcher & Juhrs	Book	Transition/Vocation	around him. This handbook demonstrates how individuals with autism can perform effectively in the workplace. Addressing all aspects of job placement, this resource provides strategies for assessing workers, networking for job opportunities, and tailoring job supports to each individual. Case studies illustrate techniques for helping individuals with autism become productive employees and detailed descriptions of specific jobs provide ideas for employment in manufacturing, printing and bulk mailing, food service, retail, and other areas.
Handbook of Autism: A Guide for Parents and Professionals	Maureen Aarons & Tessa Gittens	Book	General Autism	The authors bring twenty years of experience to this work. This book provides concise information about autism, its characteristics, and diagnostic issues. The authors are speech therapists and information on language development is included. Case studies are included.
Handbook of Neurodevelopmental and Genetic Disorders in Children	ed. By Sam Goldstein & Cecil R. Reynolds	Book	Medical	This text grew out of the authors' interest in educating their students and fellow clinicians in the powerful role genetics play in shaping the development and lives of many children. A comprehensive reference, assisting clinicians to understand, evaluate, and ultimately help children with neurodevelopmental and genetic disorders.
Hearing Equals Behavior	Guy Berard	Book	Medical	This book proposes that even very minute distortions and irregularities in a person's hearing can affect how he acts. It offers what seems to be an effective treatment for dyslexia, depression, autism, hyperacusis, tinnitus, and even stuttering using altered sounds to retrain the hearing. It clearly & simply describes the scientific functions of the hearing process along with the disorders and the actual treatment.
Helping People with Autism Manage Their Behavior	Nancy Dalrymple	Book	Behavior	Covers the broad topic of helping people with autism manage their behavior by analyzing the learning environment and the purpose of the behavior, and then designing positive programs to change behavior.
Helping Students Overcome Depression and Anxiety: A Practical Guide	Kenneth W. 				comprehensive assessment model, a wide range of easily implemented interventions, reproducible worksheets, and information on currently available psychiatric medications for depression and anxiety.	
Helping the Child Who Doesn't Fit In	Stephen Nowicki, Jr., Ph.D., & Marshall P. Duke, Ph.D.	Book	Research/Social Skills	Many children on the autism spectrum have difficulty using or understanding nonverbal communication - key to a child's social acceptance. Based on decades of research which support their findings, the authors provide parents and teachers with a guide to nonverbal communication and its role in healthy interpersonal relationships. Included are insights into understanding nonverbal communication deficits as well as practical applications for teaching these children the rules of communication.	
Helping Your Anxious Child: A Step-by-Step Guide for Parents	Ronald M. Rapee, Ph.D., et al	Book	Family Issues	Now in its second edition, this book has been expanded and updated to include the latest research and techniques for managing child anxiety. Learn how to help your child overcome intense fears and worries and find out how to relieve anxious feelings while parenting with compassion.	New
Herman's Hiding Places	Karen Emigh	Book	Children's Book	This book helps children understand the prepositions "behind", "in", "over", "under", and suggests ways parents can make these concepts into everyday games to fortify the learning process. Entertaining for all children, the brightly-colored book is particularly relevant for children who have difficulty with abstract concepts.	
Hidden Child, The: The Linwood Method for Reaching the Autistic Child	Jeanne Simons and Sabine Oishi, Ph.D.	Book	Program Design	Linwood Children's Center for autistic children was founded in 1955 by teacher and therapist Simons. Oishi skillfully combines Simons's case studies and anecdotes with her own observations and research to produce a readable, moving account. She provides an excellent explanation of autism, then a step-by-step analysis of the Linwood method of establishing relationships, patterning good behavior, overcoming compulsions, developing skills, and fostering social and emotional development. This valuable guidebook for teachers and therapists also has a hopeful message for parents of autistic children.	
Hidden Curriculum, The	Brenda Smith Myles	Book	Social Skills	This remarkable guidebook is invaluable for helping persons with social-cognitive difficulties make sense of unspoken rules and expectations that govern how we interact with others in everyday life. In well-written,

I Can Problem Solve (An Interpersonal Cognitive Problem-Solving Program): Intermediate Elementary Grades	Myrna B. Shure	Book	Strategies/Curriculum	This is a workbook designed for children with autism. The book is divided into two parts, with the first being a theoretical introduction which explains how to inform children they have autism or Asperger's Syndrome and how to use the worksheets with groups or individuals. The second part is a series of worksheets which a child works through with an adult to create a personal book about him/herself. The workbook strikes a balance between general facts, personal information, and covering the strengths an autistic person may have as well as the difficulties they may face.
I Can Problem Solve (An Interpersonal Cognitive Problem-Solving Program): Kindergarten & Primary Grades	Myrna B. Shure	Book	Strategies/Curriculum	This program, originally called Interpersonal Cognitive Problem Solving, has come to be called I Can Problem Solve (ICPS). The goal of the ICPS Program is to teach children thinking skills that can be used to help resolve or prevent "people" problems through both formal lessons and specific suggestions for incorporating ICPS principles in classroom interactions and the curriculum. This material has been used successfully with children in regular as well as in transition and special education classes. ICPS offers a practical approach to help most children learn to evaluate and deal with problems.

Inside Out: What Makes A Person With Social Cognitive Deficits Tick?	Michelle Garcia Winner	Book	Social Skills	<p>infants develop capabilities and conceptual understanding in relation to three interconnected domains: the self, objects, and other people.</p> <p>Written by a leading speech-language pathologist, this user-friendly book introduces a framework of how to more specifically understand the deficits of persons with social cognitive disabilities. The ILAUGH model is presented, which describes many of the key areas of cognition and related skills that are weak in persons with "social skills deficits". The idea that teaching students "social skills" first requires an understanding about the supporting social cognitive components and then work with students to increase their social thinking concepts is articulated and supported by examples from clinical experiences. Worksheets and sample IEP goals are provided.</p>
Introductory Guide to Including Children with Autism for Classroom Teachers, An	Donna Quon	Book	Strategies/Curriculum	This manual includes chapters on inclusion of children with autism, behavior interventions, communication, classroom strategies, and more.
It Takes Two To Talk: A Parent's Guide to Helping Children Communicate	Ayala Manolson	Book	Communication	This guidebook provides a common sense approach that parents of young children with language delays can use in any and every situation to promote their child's communication and language development.
Jackson Whole Wyoming	Joan Clark	Book	Children's Book	This fiction chapter book tells the story of two fifth-grade boys, one of whom has Asperger Syndrome, from the eyes of the neurotypical child. It is a wonderful story which is also a valuable resource for educators and parents of students with Asperger Syndrome.
Jeffrey and the Despondent Dragon	John Sprecher	Book	Children's Book	A "special message" children's picture book for all families, Jeffrey and the Despondent Dragon is beautifully illustrated with 32 pages of color, that tells the story that "just because someone is different from others, or different from how they used to be, doesn't mean that you love them any differently." Especially poignant for families with children with developmental disabilities.
Joey & Sam	Illana Katz & Edward Ritvo	Book	Children's Book	This storybook is beautifully illustrated for children. It focuses on a family with two sons, one of whom is autistic. The book addresses their similarities and differences as it follows them through daily interactions with each other,

				parents, and friends.
Joining In: A Program for Teaching Social Skills	Linda Murdock and Guru Shabad Khalsa	Book/Kit	Social Skills	This is a set of two videos and an instructor's Manual.
Just for Kids: Autism	Martha Drake	Book	Communication	Just for Kids: Autism is a program for use as a guide when working with 4 through 9-year-old children with autism. It pairs the communication needs of the child with autism with techniques that facilitate learning in activities that foster receptive, expressive, and social language development. It will give you key areas to address in remediation and a model for organizing therapy.
Just Give Him the Whale!	Paula Kluth & Patrick Schwarz	Book	Strategies/Curriculum	This concise, highly practical guidebook gives educators across grade levels a powerful new way to think about students' "obsessions": as positive teaching tools that calm, motivate, and improve learning. Written by top autism experts, this book is full of easy tips and strategies to include students' special interest, strengths, and areas of expertise into classroom lessons and routines.
Just Take A Bite: Easy, Effective Answers to Food Aversions and Eating Challenges!	Lori Ernsperger, Ph.D. & Tania Stegen-Hanson, OTR/L	Book	Strategies/Curriculum	This book is the perfect resource for parents and professionals working with children with food aversions and eating challenges. The authors provide clear and concise strategies and lessons to assist children in eating a balanced diet. Included is a comprehensive treatment plan.
Just This Side of Normal	Elizabeth Gerlach	Book	Personal Account	In this book, the author recounts when her child was diagnosed and the emotions she experienced through his first 12 years. The initial feelings of denial, then gradual acceptance are shared as the struggle to find appropriate and effective treatment for her child are pursued.
Keys to Parenting the Child with Autism	Marlene Brill	Book	Family Issues	This book explains what autism is and how it is diagnosed. You get advice on identifying resources, working with the therapeutic community, ensuring an appropriate education as defined by law, and helping each child with autism develop his or her potential.
Keys to Success for Teaching Students with Autism	Lori Ernsperger, Ph.D.	Book	Strategies/Curriculum	Dr. Lori Ernsperger offers a book based on her research and behavioral expertise that is practical, guiding those who educate students with autism step-by-step. Regardless of their level of experience, teachers now have a book which allows them to create and implement an effective educational program for their special needs students.

Land We Can Share, A: Teaching Literacy to Students with Autism	Paula Kluth & Kelly Chandler-Olcutt	Book	Strategies/Curriculum	Authored by nationally known scholars in autism and literacy, this groundbreaking guide shows teachers how to move beyond functional literacy skills to bring high-quality, meaningful literacy instruction to students with autism.	New
Laying Community Foundations for Your Child with a Disability	Linda Stengle, M.H.S.	Book	Family Issues	If you're the parent of a child with a disability, this book is of critical importance to you. Laying Community Foundations emphasizes the need to begin now to build a caring community of people who will provide emotional support and guidance for your child after your death. Chapters discuss: how to assess your child's needs; how to foster long-term relationships for your child; where to look for relationships; how to ask people for a commitment; and independent living arrangements.	
Learn to Move, Move to Learn! Sensorimotor Early Childhood Activity Themes	Jenny Clark Brack	Book	Sensory	This book is an excellent resource for parents and professionals alike, providing "best practice" occupational therapy services to children in preschool and early childhood settings. This complete, easy-to-use program teaches linguistic, cognitive, and social/emotional skills at the same time as sensory integration and motor skills, using a transdisciplinary approach. A sensory integration model is used as a foundation for the fun, engaging and stimulating activity selection. Each session is theme- and literature-based, and all group activities are performed within an inclusive environment.	
Learners on the Autism Spectrum: Preparing Highly Qualified Educators	Edited by Kari Dunn Buron and Pamela Wolfberg	Book	Program Design	This textbook is designed to prepare highly qualified educators with essential knowledge and practical skills to support diverse learners on the autism spectrum. Covering a variety of topics, chapters are written by leading experts who address the core issues related to individuals with autism spectrum disorders.	
Learning & Cognition	ed by Eric Schopler & Gary Mesibov	Book	Research	One of the "Current Studies in Autism" series, this book discusses cognitive approaches to understanding and working with people with autism. Techniques included in this book are thinking, learning social cognition, education, and treatment.	
Learning Self-Care Skills	Valerie DePalma and Marci Wheeler (Indiana Resource Center for Autism)	Booklet	General Autism	This booklet is designed to help parents and instructors develop and implement programs for self-care skills such as eating and grooming. Examples of practical strategies and

Learning to be Independent and Responsible	Nancy Dalrymple (Indiana Resource Center for Autism)	Booklet	General Autism	steps to consider when working with a learner with autism are outlined throughout the booklet. People with autism build trust in people and environments through successful interactions. Individualized, supportive programs utilizing positive instructional and environmental supports that lead to increased opportunities, choice and motivation are described in this booklet.
Learning to Live with High Functioning Autism: A Parent's Guide for Professionals	Mike Stanton	Book	High Funct/Aspergers	Intended for the professionals who work with autistic people and their families, this book draws on the Stanton family's experiences, and compares it with the experience of others, to offer an honest portrayal of what living with autism is actually like for all of those involved. It provides support and encouragement for families, as well as being a valuable source of information and advice for professionals working with autistic children and their families.
Learning with a Visual Brain in an Auditory World: Visual Language Strategies for Individuals with Autism Spectrum Disorders	Ellyn Lucas Arwood, Ed.D. & Carole Kaulitz, M.Ed.	Book	Strategies/Curriculum	This book is unique in that the authors are recommending strategies based on the language of the way individuals with ASD learn. This book is divided into three sections. Section One is about the learning system. Section Two connects the learning of a child with ASD to how the child performs behaviorally, academically, and socially. Section Three provides intervention strategies for helping a person (child or adult) with the visual brain characteristic of ASD to fit into an auditory culture. The strategies are language-based and take into consideration the complexity of the underlying biological learning system.
Legendary Blobshocker	Ryan Wilson	Book	Children's Book	A colorful storybook written and illustrated by nine-year-old Ryan Wilson, a high functioning autistic boy with a delightful personality and great imagination. Publisher states it is the only book they know of written by a challenged child for the general population.
Let Community Employment be the Goal for Individuals with Autism	Joanne Suomi, Lisa Ruble, Nancy Dalrymple (Indiana Resource Center for Autism)	Book	Transition/Vocation	A guide for people who are responsible for preparing individuals with autism to enter the world of work.
Let's Talk Emotions	Teresa A. Cardon M.A., CCC-SLP	Book	Social Skills	This book focuses on strategies and intervention ideas to help children with social cognitive deficits, including AS, HFA, and NVLD, learn to understand and express empathy

TITLE	AUTHOR (S)	TYPE	CATEGORY	DESCRIPTION
Life Behind Glass: A Personal Account of Autism Spectrum Disorder	Wendy Lawson	Book	Personal Account	and emotions. Wendy was told in school that she was considered to be intellectually disabled and "almost incapable of doing anything as she was told." Misdiagnosed as a schizophrenic, a label that stuck with her for more than 25 years, she was finally diagnosed at age 42 with Asperger Syndrome. Despite the world around her being this mysterious place, she was able to go to college and obtain two degrees after her divorce, raise four children, become a social worker and adult educator, and operate her own business. Wendy writes a riveting and painfully honest account of her life to help "build a bridge...from my world to theirs." That bridge also helped Wendy and her family learn to speak about the past and help each other to accept.
Light on the Horizon: A Deeper View from Inside the Autism Puzzle	Thomas McKean	Book	Sensory	A sequel to his first book, Thomas McKean offers parents and professionals insight into the behavior of individuals with autism. McKean has provided valuable testimony regarding the link between autism and sensory dysfunction. In this unique first-person narrative, he has illustrated for parents, educators and therapists, the difficulty many with autism have registering, modulating and integrating sensory input. The better the understanding of this link, the greater the insight into the behavior of those with autism.
Listen and Collaborate: Creating a Parent/Professional Partnership	Laurie Eckenrode, Pat Fennell, and Kathy Hearsey	Kit	Program Design	Designed by teachers and therapists who are highly experienced in Structured Teaching methodology, this is a convenient and practical questionnaire set that provides questions for professionals to ask parents, caregivers, and students when developing educational programs for students with autism spectrum disorder (ASD) and other developmental disabilities.
Little Rain Man	Karen Simmons	Book	Children's Book	Simmons, the mother of a child with autism, has written this book to help autistic children, along with their parents, teachers, and siblings, understand as early as possible the real "world of autism." The intent is to enable these children to get into an early intervention program as soon as possible. Written from a child's point of view, the book provides an insight into an autistic child's point of view.
Living with Autism: The Parents' Stories	Kathleen Dillon, Ph.D.	Book	Family Issues	Dillon surveys parents regarding their experiences raising a child with autism. The goal is to educate parents, families,

TITLE	AUTHOR (S)	TYPE	CATEGORY	DESCRIPTION
Lucy's Story: Autism and Other Adventures	Lucy Blackman	Book	Personal Account	and friends of those with autism through first hand accounts and to provide policy makers with information so that informed decisions regarding individuals with autism are made. Born with autism, Lucy could not understand much of what was said around her. She created stories and poems in her head from the words she had read. As an adult she still barely speaks. Her ambition was to write a book. While writing she started to understand her own autism, and through that understanding she came to type on a computer with no physical support to complete her B.A. in Literary Studies. This book is essential for anyone interested in autism, sensory issues, augmentative and alternative communication, etc.
Making a Difference: Behavioral Intervention for Autism	Ed by Catherine Maurice, Gina Green, & Richard M. Foxx	Book	Strategies/Curriculum	This book provides information about high-quality applied behavioral research and practice in understandable terms, making it accessible to the lay public as well as professionals and academicians.
Making it Happen: Student Involvement in Education Planning, Decision Making and Instruction	Michael Wehmeyer & Deanna Sands	Book	Communication	This new Hanen guidebook for parents of children with Autistic Spectrum Disorders contains extensive, practical information in a familiar, user-friendly format. It contains an in-depth description of strategies drawn from current research, which are known to help children with autism develop more advanced communication skills. The strategies are placed within a Hanen framework of helping children learn in naturalistic contexts.
Making Sense of Art: Sensory-Based Art Activities for Children with Autism, Asperger Syndrome and Other Pervasive Developmental Disorders	Sandra R. Davalos	Book	Sensory	In this exciting book, the author provides a series of practical and meaningful art experiences that can be adapted and modified to children of varying skill levels. The activities are designed to stimulate the child's senses through manipulation and exploration, arouse curiosity and creativity, and develop a sense of mastery. Included are easy-to-follow, step-by-step procedures along with a list of adaptations, modifications and alternative instructional strategies suggested for children with special needs in inclusive classrooms.
Making Visual Supports Work in the Home and Community: Strategies for Individuals with Autism and Asperger	Jennifer Savner & Brenda Smith Myles	Book	Strategies/Curriculum	This book is full of practical ideas for daily living with a child with Asperger Syndrome. Syndrome				simple, effective visual supports. The information is presented in a concise and practical format that facilitates quick and easy application for parents and professionals alike.
Management of Autistic Behavior	Richard L. Simpson & Madelyn Regan	Book	Strategies/Curriculum	This guidebook provides information on educational programs, application of behavior management principles, assessment of preliminary behavior management and development of behavior management programs, intervention procedures, and curriculum development.
Martian in the Playground: Understanding the Schoolchild with Asperger's Syndrome	Clare Sainsbury	Book	High Funct/Aspergers	Based on her own school experiences as a child with Asperger's Syndrome, and the experiences of friends and companions, the author provides an insightful view into the world of young people with this autism spectrum disorder. The memories that they share of their experiences in school and social settings provide valuable understanding into what school is like for children with Aspergers.
Meaningful Exchanges for People with Autism: An Introduction to Augmentative & Alternative Communication	Joanne M. Cafiero, Ph.D.	Book	Communication	This book, written by an experienced consultant and teacher, provides an overview of augmentative and alternative communication (AAC), any system that utilizes tools, devices, symbols, pictures, words, or gestures to compensate for communication deficits. Included are strategies and tools as well as real life vignettes of individuals using AAC.
Meeting the Needs of Children with Autistic Spectrum Disorders	Rita Jordan and Glenys Jones	Book	Strategies/Curriculum	Ideal for anyone teaching children with autism spectrum disorders for the first time in a mainstream setting. Using a case-study approach, the authors help the teacher identify the meaning behind pupils' actions and reactions, and provide suggested responses via practical exercises and curriculum suggestions.
Mindblindness: An Essay on Autism and Theory of Mind	Simon Baron-Cohen	Book	General Autism	Simon Baron-Cohen presents a model of the evolution and development of "mindreading". Baron-Cohen argues that specific neurocognitive mechanisms have evolved that allow us to mindread -- that is, to make sense of actions, to interpret and ascribe mental/emotional states to those around us, and to decode what he calls the language of the eyes. Building on years of research, the author concludes that children with autism suffer from mindblindness as a result of a selective impairment in mindreading.

TITLE	AUTHOR (S)	TYPE	CATEGORY	DESCRIPTION
Parent's Introduction to Behavior Modification, A	Jim Wilson	Book	Family Issues	such as: symptoms and types of autism; possible causes; therapy options; treatment alternatives; facilitated communication; choosing a school; insurance and legal rights; and available resources. This book is written for the parents of children with autism or pervasive developmental disorders. It is written by a parent and serves well as a concise description of behavior modification as it is applied to the treatment of young children. It provides an overview of behavior modification to anyone that needs a clear and concise description of this important training technique.
Passion to Believe, A: Autism and the Facilitated Communication Phenomenon	Diane Twachtman-Cullen	Book	Communication	Facilitated Communication (FC) is a controversial topic in the autism community. Proponents swear by its effectiveness while scientists dispute the results based on the nature of autism and lack of scientific validation. FC has also been used to raise the hopes of families and levy false accusations against parents and care givers. This book is an account of the author's independent research into this technique, including case studies and transcripts of sessions. Her findings will be of great interest to members of the autism community.
Pathways to Learning in Rett Syndrome	Jackie Lewis & Debbie Wilson	Book	General	Offers advice on the special education needs of girls with Rett Syndrome, for teachers and parents. Assists teachers in developing a working knowledge of the syndrome and suggests strategies in planning a curriculum. Parents can gain a clear picture of the special school system in the UK and the educational implications for their daughter. This is a revised and expanded version of a book published with the UK Rett Syndrome Association.
Pathways to Play! This book provides helpful guidelines for administrators, teachers, and parents. The tools are specifically designed/adapted for the challenges faced by students with AS. Packed with easy-to-implement solutions for identifying, resolving, and preventing the bullying.
Pervasive Developmental Disorder: An Altered Perspective	Barbara Quinn and Anthony Malone	Book	Assessment	This book, written for parents, explains what it means to have your child diagnosed with PDD, NOS, autism, or Asperger's Syndrome and where you go from there. The authors describe the symptoms of PDD, what the diagnosis means, how a child fits into the diagnostic terminology, and the diagnostic procedures involved. They also review associated disorders such as OCD and discuss the different treatments and therapies available. The book includes frequently-asked questions as well as the experience of other parents.
Pervasive Developmental Disorders: Finding a Diagnosis and Getting Help	Mitzi Waltz	Book	General Autism	Covers: getting a diagnosis, treatment options, behavior modification, parenting techniques, emotions and support systems, insurance, and educational plans. Primarily for parents.
Pervasive Developmental Disorders: PDD-NOS, Asperger's Disorder, and Autism Parent Information Booklet	Karen Levine, Ph.D.	Book	High Funct/Aspergers	This information booklet is designed for parents who have a child who has been diagnosed with "PDD" or Asperger's Syndrome. It was written because while there is a great

Picture Cookbook, The	Joyce Dassonville & Ehren McDow	Book	Family Issues	Introduces recipes to young children and individuals with special needs using photos instead of words. This cookbook teaches essential life skills to special chefs as they experience self-sufficiency and family fun in the kitchen.
Picture Exchange Communication, Training Manual	Lori Frost & Andy Bondy	Book	Communication	A popular AAC training system designed for use with children with autism, this system teaches children to approach and give a picture of a desired item to a communicative partner in exchange for that item. By doing so, the child initiates a communicative act for a concrete outcome within a social context. PECS is simple to use and includes a manual with step-by-step instructions on how to implement the system. Does not require extensive equipment or training and can be used in a variety of settings.
Picture's Worth, A: PECS and Other Visual Communication Strategies in Autism	Lori Frost & Andy Bondy	Book	Communication	This easy-to-understand guide presents in detail the Picture Exchange Communication System (PECS)-pictures used by a child to express his needs and desires without a prompt from another person-as well as an overview of other augmentative and alternative communication systems.
Pivotal Response Treatments for Autism: Communication, Social, & Academic Development	Robert L. Koegel & Lynn Kern Koegel	Book	Program Design	An innovative, state-of-the-art treatment for autism, Pivotal Response Treatment (PRT) uses natural learning opportunities to target and modify key behaviors in young children with autism, leading to widespread positive effects on communication, behavior, and social skills.
Play & Imagination in Children with Autism	Pamela Wolfberg	Book	Research	Based on research findings, this book provides a wealth of information for parents, educators, and professionals about play theory and autism. The book examines the problems experienced by children with autism in social and play situations. By tracing the development and three children with autism over an 11-year period, we are able to see how peer play interventions can promote improved social relations and reciprocal play skills.
Playground Politics	Stanley Greenspan, M.D.	Book	Social Skills	This book looks at the middle years of childhood-from kindergarten to junior high-and helps parents understand the enormous emotional challenges these children are facing. This is an exciting book, easy to read and to identify with, valuable for all parents of children aged five to twelve. Dr. Greenspan brings to life the emotional

Positive Approach to Autism	Stella Waterhouse	Book	General Autism	<p>milestones of these years as children move toward an independent self-image.</p> <p>Investigates how people with autism view the world, discusses the symptoms, behaviors, and possible causes of this condition. Examines the related conditions and considers the impact of anxiety and the pros and cons of current treatments including, diet, secretin, and tinted lenses.</p>	
Positive Behavioral Support: Including People with Difficult Behaviors in the Community	Ed. by Lynn Kern Koegel, Robert Koegel, & Glen Dunlap	Book	Behavior	<p>This person- and family-centered book features case studies, research-based strategies, and discussion pieces written by leaders in behavioral intervention. This book will be helpful with reducing and preventing challenging behavior, encouraging family involvement, enhancing education, and increasing social interactions.</p>	
Power Cards: Using Special Interests to Motivate Children and Youth with Asperger Syndrome and Autism	Elisa Gagnon	Book	Strategies/Curriculum	<p>This step-by-step book shows parents and educators how to help change an unwanted or inappropriate behavior by capitalizing on the special interests that characterize children and youth with AS. A brief, motivational text related to a special interest or a highly admired person is combined with an illustration and made into a POWER CARD that the youth can refer to whenever necessary. For younger children the special interest or hero is worked into a brief story.</p>	
Practical Solutions for Educating Young Children with High-Functioning Autism and Asperger Syndrome	Mary Jane Weiss, Ph.D.	Book	High Funct/Aspergers	<p>This book is designed to help parents and professionals navigate the challenges for early learners with high-functioning autism (HFA) and Asperger Syndrome (AS). Because their deficits are more subtle, these children may be less understood by educational professionals. This book is a much-needed resource to help teachers understand their younger child with HFA or AS.</p>	New
Practical Ideas That Really Work for Students with Autism Spectrum Disorders	Kathleen McConnell & Gail R. Ryser	Book	Strategies/Curriculum	<p>40 practical, easy-to-use classroom ideas designed for teachers to help them improve the social interactions and communication skills of students with autism spectrum disorder (ASD). The projects and activities included were created for children with ASD in preschool through grade 12, and they include concepts ranging from showing enthusiasm and problem solving to making requests and demonstrating independent behavior.</p>

Practical Solutions to Everyday Challenges for Children with Asperger Syndrome	Haley Morgan Myles	Book	High Funct/Aspergers	The nine-year-old author of this book has many practical suggestions for everyday situations which are presented in an easy-to-read format complete with engaging illustrations. Children and adults alike will enjoy this "how-to" manual.
Preparing for Life: The Complete Guide for Transitioning to Adulthood for those with Autism and Asperger's Syndrome	Dr. Jed Baker	Book	Transition/Vocation	This easy-to-follow resource provides a complete toolbox of social skills and the means to attain them so that students may approach their futures with excitement rather than anxiety. A wide variety of issues are covered such as perspective-taking, nonverbal communication skills, conversational skills, and stress management. Also included are the laws and services that provide assistance as well as options and resources.
Preschool Issues in Autism	ed by Schopler, Van Bourgondien & Bristol	Book	General Autism	Deals with the latest preschool issues. Topics covered include a parent's perspective, behavior management in the early years, early social development, medical syndromes, federal legislation for young children and early interventions.
Pretending to be Normal: Living with Asperger's Syndrome	Lianne Willey	Book	Personal Account	This first-person account tells the story of a woman who learns to accept her autism over time. Written to provide insight into Asperger Syndrome for family members and providers, the book also includes a section on coping strategies.
Professional's Guide to Estate Planning for Families of Individuals with Disabilities	Susan Hartley & John Stewart	Book	Family Issues	A comprehensive book covering future planning, wills, guardianship, benefit preservation, financial planning options, and trusts. Susan Hartley is Director of Life Plan Trust, a nonprofit future planning organization co-sponsored by the Autism Society of North Carolina.
Reaching the Autistic Child: A Parent Training Program	Martin Kozloff	Book	Strategies/Curriculum	A parent-training program -- chapters include theories, therapies, and a new direction in autism, methodology, and the parent-training program.
Reaching the Child with Autism Through Art	Toni Flowers	Book	Strategies/Curriculum	In the words of the author, too often children with autism are left out of art class because they are too difficult to reach. The experiences in this book have been "autism tested" and given the "lick, sniff, twiddle" seal of approval by children with autism everywhere.

TITLE	AUTHOR (S)	TYPE	CATEGORY	DESCRIPTION
Reading Too Soon	Susan Martins Miller	Book	General Autism	Behavioral Research and Education, is a program for teaching children with autism and other developmental delays who have difficulty acquiring vocal language. Based on scientific research on teaching students with developmental delays, the program teaches children to read and write using only visual stimuli. The program includes detailed explanations and systematically addresses areas of difficulty for teaching students to express themselves using longhand, a computer keyboard, other computing devices, and the Picture Exchange Communication System (PECS).
Reading Too Soon	Susan Martins Miller	Book	General Autism	The term hyperlexia describes a syndrome marked by advanced reading skills at a young age accompanied by significant problems in language and social skills. This book moves beyond the curiosity of the unusual children who fit this description and ventures into practical approaches for helping them achieve their potential.
Relationship Development Intervention with Children, Adolescents and Adults	Steven Gutstein & Rachelle K. Sheely	Book	Social Skills	This volume contains over 200 activities and exercises ranging over the entire gamut of social and emotional development, and is applicable to anyone, regardless of diagnosis, but will be particularly valuable for those on the autism spectrum. Activities can be undertaken independently, or with a teacher or therapist, and a full schema for the evaluation of progress and objectives is included.
Relationship Development Intervention with Young Children	Steven Gutstein & Rachelle K. Sheely	Book	Social Skills	Friendship, even for the most able, requires hard work, and the odds are heavily stacked against those with autism spectrum disorders. Designed for younger children, typically between the ages of two and eight, this comprehensive set of activities emphasizes foundation skills such as social referencing, regulating behavior, conversational reciprocity and synchronized actions.
Relaxation: A Comprehensive Manual for Adults, Children, and Children with Special Needs	Joseph R. Cautela, June Groden	Book	Behavior	This manual is the result of a research project designed to develop a flexible model for teaching relaxation as a self-control procedure for adaptive behavior. The goal was to show children how to use relaxation as a self-regulation tool for decreasing aggressive and disruptive behaviors. Included are sections on techniques designed for adults; methods for teaching relaxation to adults and older children; and procedures for teaching relaxation to young

				children and children with developmental disabilities. Included are illustrations and suggested readings.
Right Address...Wrong Planet: Children with Asperger Syndrome Becoming Adults	Gena P. Barnhill	Book	High Funct/Aspergers	The author takes us along as her family negotiates the fine line between support vs. independence during her son's coming of age. It is a frank, at times, moving account of one family's experience, and the reader will learn from their struggles and success. This book is a long-awaited roadmap for parents of adolescents with Asperger Syndrome and the professionals who work with them.
Right from the Start: Behavioral Intervention for Young Children with Autism	Sandra Harris, Ph.D. and Mary Jane Weiss, Ph.D.	Book	Behavior	A practical guide to understanding applied behavioral analysis (ABA). Harris & Weiss provide an overview of how ABA was developed and what research data has told us. Examples of how ABA is used to teach speech and language, social, motor, and adaptive skills through a system of repetition, reward, and goal adjustment, as well as information on what parents should consider when choosing a treatment method for their child is included.
Room 14: A Social Language Program Ages 6-10	Carolyn Wilson	Kit	Communication/Social Skills	This program is written for children ages 6-10 with language and/or learning difficulties to provide social language skills through stories and extended activities. Students will identify with the Room 14 characters who have social problems and social successes much like their own. Included in a complete curriculum consisting of an instructor's manual, activities book, and picture book.
Room 28: A Social Language Program Ages 12-18	Carolyn LoGiudice & Nancy McConnell	Kit	Communication/Social Skills	This program is written for students ages 12-18 with language and/or learning difficulties to provide social language skills needed to be successful in school and in life. This program will equip teachers and students with the knowledge and strategies needed to understand and manage social situations and resolve conflicts. Instructor's manual & workbook.
Rules	Cynthia Lord	Book	Junior Fiction	This junior book was awarded the Newbery Honor and the Schneider Family Book Award. Twelve-year-old Catherine just wants a normal life. Which is near impossible when you have a brother with autism and a family that revolves around the disability. Filled with humor and warmth, this novel takes a sensitive look at feeling different and finding acceptance.

Running with Walker: A Memoir	Robert Hughes	Book	Personal Account	When Walker was three, doctors diagnosed autism and issued a grim prognosis. They hadn't accounted for his intelligence, affection, and sense of humor-or the remarkable bonds that grew within his family. Walker's father, Robert Hughes, tells a touching and inspiring story of how a family copes and keeps hope alive despite the difficulties autism presents. Robert Hughes, an English teacher at Truman College in Chicago, is also a contributing journalist to magazines such as Newsweek.
Russell is Extra Special: A Book About Autism for Children	Charles Amenta III, M.D.	Book	Children's Book	This is a sensitive portrayal of an autistic boy written by his father. A physician, Amenta skillfully weaves relevant factual information about autism into his narrative using clear language that children will easily follow.
S.O.S.: Social Skills in Our Schools	Michelle A. Dunn, Ph.D.	Book	Social Skills	A comprehensive social skills program for children with pervasive developmental disorders, including High-Functioning Autism and Asperger Syndrome, and their typical peers. This program focuses not only on developing appropriate social skills for these children, but also fosters understanding among peers and school staff.
SCERTS Model, The: A Comprehensive Educational Approach for Children with Autism Spectrum Disorders, Volume I, Assessment	Barry Prizant, Amy Wetherby, Emily Rubin, Amy Laurent, and Patrick Rydell	Book	Communication	This first book of the two-volume SCERTS manual provides practical guidance on using the SCERTS Model to assess the communication and social-emotional abilities of preschool and elementary school children with ASD. The three domains of the SCERTS Model: Social Communication, Emotional Regulation, and Transactional Support.
SCERTS Model, The: A Comprehensive Educational Approach for Children with Autism Spectrum Disorders, Volume II, Program Planning & Intervention	Barry Prizant, Amy Wetherby, Emily Rubin, Amy Laurent, and Patrick Rydell	Book	Communication	This second book of the two-volume SCERTS manual provides practical guidance on using the SCERTS Model in program planning and intervention for preschool and elementary school children with ASD. The three domains of the SCERTS Model: Social Communication, Emotional Regulation, and Transactional Support.
Scholastic Dictionary of Idioms	Marvin Terban	Book	Communication	This Scholastic book explains the meanings and origins (if known) of more than 600 idiom, idiomatic phrases, sayings, and expressions. It is an excellent resource for kids baffled by the intricacies of the English language.

Shadow Syndromes: Recognizing and Coping With the Hidden Psychological Disorders That Can Influence Your Behavior	John Ratey, M.D., & Catherine Johnson, Ph.D.	Book	Medical	This book examines the "shadow syndromes" of major mental disorders. The authors examine the biological factors that can influence our personalities and illustrate their points by using case studies. The authors also offer treatment options that can improve our lives through diet, exercise, psychotherapy and medication.
Show Me the DATA!	EEU-UW	Book	Assessment	
Sibling Stories: Reflections on Life with a Brother or Sister on the Autism Spectrum	Lynne Stern Feiges & Mary Jane Weiss	Book	Family Issues	The book is an intriguing mixture of facts and experiences that will benefit both siblings and parents. An outstanding contribution to our understanding of the feelings for and the relationships that siblings have with their brothers and sisters with autism spectrum disorders. The first-hand accounts of the siblings who were interviewed and the authors' varied suggestions for coping and living a satisfying life make this an invaluable resource.
Siblings of Children with Autism: A Guide for Families	Sandra Harris, Ph.D.	Book	Family Issues	The needs of a child with autism can be so all-consuming that parents may unintentionally overlook the needs of the child's brother or sister. This book helps parents become more aware of relationships between their children, and balance each family member's needs. Parents discover successful ways to address the needs of <u>all</u> their children without shortchanging themselves.
Sibshops: Workshops for Siblings of Children with Special Needs	Donald J. Meyer & Patricia F. Vadasy	Book	Family Issues	This practical resource details Sibshops, the award-winning program that brings together siblings of children with special needs to express their feelings, provide support, and share information in a recreational atmosphere. From start to finish, this illustrated source book describes how to organize a Sibshop, and can be used by teachers, parents, and other professionals.
Siege, The: A Family's Journey Into the World of an Autistic Child	Clara Park	Book	Personal Account	Original published in 1967 when autism was virtually untreatable and misunderstood. The Siege has been republished with an epilogue, updated bibliography, and resource list. It tells of a mother's struggle to penetrate her daughter's world.

In response to request from parents, this long-awaited book is specifically geared toward older students. Included are a visual learning format with photos of actual students engaging in a wide variety of social situations, a way for students and families to create their own Social Skills booklets, and examples of real-life situations that are important to teens.
Social Skills Training For Children and Adolescents with Asperger Syndrome and Social-Communication Problems	Jed E. Baker, Ph.D.	Book	Social Skills	This user-friendly book provides a wealth of ready-to-use activities for both parents and educators working with children and adolescents with Asperger Syndrome and social-communication problems. This book covers everything from assessment and strategies for social skills training, to generalization of those skills, to behavior management, to the often-overlooked importance of promoting peer acceptance through sensitivity training. The core of this book is the inclusion of individual skill lessons and activities that address many social situations. An essential resource for those who want to increase all students' social and coping skills.
Social Story Book, The New	Carol Gray	Book	Social Skills	This new book has new text and illustrations to help children with autism or Asperger's Syndrome understand the social world around them. As in her other two social storybooks, which the new book replaces, topic areas include home, school, community, social skills, and writing social stories.
Social Story Book, The Original	Carol Gray	Book	Social Skills	This is the original Social Stories book. Included are stories about home, school, community, addressing social skills, and writing your own social stories.
Solving Behavioral Problems in Autism: Improving Communication with Visual Strategies	Linda Hodgdon	Book	Behavior	This book is the eagerly awaited sequel to Visual Strategies for Improving Communication. Hodgdon explains how to use effective communication techniques to reduce problem behaviors in persons with autism. Parents and educators will be able to better recognize how communication difficulties contribute to behavioral problems. The book also offers tips on how to remedy these problems through the use of visual cues and promote language.

Somebody Somewhere	Donna Williams	Book	Personal Account	The author of the international bestseller Nobody Nowhere continues her searing, revealing account of her battle with autism. In this book, Donna explores the four years since her diagnosis and her attempts to live normally and leave her "world under glass."
Son Rise: The Miracle Continues	Barry Kaufman	Book	Personal Account	This book picks up where "Son-Rise" left off. Readers are treated to the gift of a healthy, nonautistic Raun and his sisters. Raun provides many of the insights about autism. "You have to be pretty smart to pull it off," he says later. "I don't know how I ever spun a shoe box on one corner. I couldn't do that now." Raun's second grade assignment was to draw a picture of himself. His picture was of a beautiful pregnant woman. When asked why he drew a pregnant woman, he said, "That's my mother. There is a little boy inside her spinning a plate." A lovely story about how this child was able to chart his own progress and development.
Songs of the Gorilla Nation: My Journey through Autism	Dawn Prince-Hughes, Ph.D.	Book	Personal Account	In this memoir, the author traces her personal growth from undiagnosed autism to the moment, as a young woman, when she entered the Woodland Park Zoo in Seattle and became fascinated with the gorillas. By observing them, and later, working with them, she was finally able to emerge from her solitude and connect to living beings. Now an adjunct professor of anthropology at Western Washington University, her story is a revealing account of the life of a person with Asperger Syndrome.

Autism Outreach Project Resource Library: Books and Kits

TITLE	AUTHOR (S)	TYPE	CATEGORY	DESCRIPTION
Soon Will Come the Light	Thomas McKean	Book	Personal Account	Inside the mind of a person with autism. McKean describes the sensory stimulations & challenges and takes you through his early childhood, the pain of misdiagnosis and of being institutionalized, the difficulty of relationships, and the apprehensions of a person with autism. He also discusses different treatment options. This book is excellent for a family with a autistic member, anyone working with that community, and students.
Souls: Beneath and Beyond Autism	Sharon Rosenbloom & Thomas Balsamo	Book	General Autism	An inspiring book about children with autism. Through pictures and words, this book provides us with insight into the intense emotions, love and perspectives of families and a glimpse into the true essence of their very "Souls."
Space Travelers: An Interactive Program for Developing Social Understanding, Social Competence, and Social Skills for Students with Asperger Syndrome, Autism, and other Social Cognitive Challenges	M.A. Carter & J. Santomauro	Book/Kit	Social Skills Included are both Space Guide (Teacher) Manual and Student Manual	"Space Travelers" is an excellent social skills program with easy-to-follow curriculum for mid-grade school-aged children with Asperger Syndrome, high functioning autism and related disorders. Included with the program are both a teacher's manual and a student workbook. Using the space traveler metaphor, teachers (space guides) teach children (space travelers) strategies to understand and be successful in the social world. The program uses a fun and clearly defined approach to teaching social-emotional skills which will appeal to both children and teachers.
Special Diets for Special Kids	Lisa Lewis, Ph.D.	Book	Medical	Many families feel that the removal of gluten and casein from a child with autism's diet can help reduce some of the negative behaviors of autism. Lewis, who is the parent of a child with autism, explains the many issues involved in food allergies and food intolerance. She provides resources for tests and nutritional sources and offers a wealth of recipes.
Special Diets for Special Kids TWO	Lisa Lewis, Ph.D.	Book	Medical	This helpful sequel to the best-selling Special Diets for Special Kids is loaded with even more recipes and tips to simplify the use of a special diet to help children and adults with autism. This dietary intervention plan is explained in simple terms with easy-to-follow recipes.
Special-Needs Reading List, The	Wilma Sweeney	Book	General Autism	This sourcebook seeks to carve out a niche for itself as a "where to look first" guide. Because of what the author calls "an information explosion in the disabilities field," the guide is selective rather than comprehensive. The books, newsletters, journals, and other information sources that are

Effective, ASD Inclusion Program				educator roles and responsibilities, ongoing program assessment, evaluating student progress, designing an appropriate program, and legal guidelines for placement. Includes a wealth of helpful forms, checklists, and handouts.	
Superflex...A Superhero Social Thinking Curriculum	Stephanie Madrigal & Michelle Garcia Winner	Book	Social Skills	Superflex provides educators and parents with fun and motivating ways to teach elementary school students with Asperger Syndrome and high-functioning autism how to build social skills. Superflex combines a book, comic book and CD to create a curriculum that develops in the students' brains a superhero who overcomes the social thinking challenges that arise in different social contexts.	New
Supporting Individuals with Autism Spectrum Disorder in Recreation	Phyllis Coyne & Ann Fullerton	Book	Strategies/Curriculum	This guide was written to help families, educators, and other professionals learn effective ways to assist individuals with autism spectrum disorder (ASD) in school and community recreation activities. Included is information on the impact of ASD on recreation participation, program development and accommodations, and selected programs that are using promising recreation practices. Strategies are provided for service providers to use in the creation of meaningful recreation services for children, adolescents, and adults.	
Taking Care of Myself: A Hygiene, Puberty and Personal Curriculum for Young People with Autism	Mary Wrobel	Book	Strategies/Curriculum	This book was specifically designed to address the health and safety needs of students aged five and up with autism spectrum disorders. Through a unique combination of social stories and easy-to-understand activities, this book will reduce the fear and confusion surrounding issues of hygiene, health, puberty and more.	
Taking the Mystery Out of Medications in Autism/Asperger Syndromes	Luke Tsau	Book	Medical	This book provides information that educates the caregiver so they can respond with knowledge to the judgments made by their physician.	
TalkAbility: People Skills for Verbal Children on the Autism Spectrum	Fern Sussman	Book	Communication	This Hanen Centre guidebook is designed for parents and caregivers of young children who have difficulty interacting with others. It offers a wealth of practical strategies to help children develop the people skills that make it possible to engage in successful conversations and friendships.	
Talking to Angels	Esther Watson	Book	Children's Book	Ages 5-8. Sophisticated in design, with illustrations that	

Autism Outreach Project Resource Library: Books and Kits

TITLE	AUTHOR (S)	TYPE	CATEGORY	DESCRIPTION
				combine the innocent look of children's sketches with the pull of abstract expressionism, this book is one of the few picture books that tackles the subject of autism. There is no story in the traditional sense. Rather, in minimal text, Watson introduces her autistic sister, Christa, and the world of sensations in which the child seems to live. Autism is not sharply defined. In fact, young children may find many of Christa's feelings ("Christa loves the way water looks. She also likes the way kittens feel on her cheek") difficult to distinguish from their own. A subtle book best shared with grown-ups.
Taming the Recess Jungle	Carol Gray	Book	Social Skills	This book is a great tool to socially simplify recess for students with autism and related disorders.
Targeting Autism: What We Know, Don't Know, and Can Do to Help Young Children with Autism and Related Disorders	Shirley Cohen	Book	General Autism	Provides an objective examination of the current treatment methods and programs available for individuals with autism, particularly interventions designed for young children. Cohen utilizes narratives from parents, up-to-date research findings, and personal observations to compare and contrast the various practices is use today.
Tasks Galore: Creative Ideas for Teachers, Therapists, and Parents Working with Exceptional Children	Laurie Eckenrode, Pat Fennell & Kathy Hearsey (Division TEACCH)	Book	Strategies/Curriculum	This resource, written by teachers and therapists experienced in Structured Teaching methodology, contains a compilation of tasks shown in full-color photographs. The first book in the full-color pictorial series of multi-modal tasks, used in programs for children with autism, is applicable to any early education or learning environment. The creative ideas for teachers, therapists, and parents working with exceptional children will be a launching pad to individualize a program for their own students.
Tasks Galore: For The Real World	Laurie Eckenrode, Pat Fennell & Kathy Hearsey (Division TEACCH)	Book	Strategies/Curriculum	This resource, written by teachers and therapists experienced in Structured Teaching methodology, contains a compilation of tasks shown in full-color photographs. The second book in the full-color pictorial series of visually structured tasks for teaching domestic, vocational, and other independent living skills to individuals with autism will be valuable in preparing the exceptional student for independence in the "Real World."
Tasks Galore: Making Groups Meaningful	Laurie Eckenrode, Pat Fennell & Kathy Hearsey (Division TEACCH)	Book	Strategies/Curriculum	This resource, written by teachers and therapists experienced in Structured Teaching methodology, contains a compilation of tasks shown in full-color photographs.

TITLE	AUTHOR (S)	TYPE	CATEGORY	DESCRIPTION
TEACCH Approach to Autism Spectrum Disorders, The	Gary B. Mesibov, Victoria Shea & Eric Schopler	Book	Program Design	The third book in the full-color pictorial series of visually structured tasks helps teachers, parents, and therapists apply structured teaching techniques to classroom groups and school specialties (music, dance, and physical education) as well as to home parties. The TEACCH program is an internationally recognized treatment and support modality for individuals of all ages with autism spectrum disorders. The program focuses on the development of instruction and supports based on each individual's skills, interests, and needs. It draws from research literature to create activities and environments that are organized to emphasize meaningfulness. A valuable resource for all clinicians, families, teachers, and therapists.
Teach Me Language	Sabrina Freeman, Ph.D. & Lorelei Dake, B.A.	Book	Communication	Designed for parents and language therapists, this manual is based on professional speech pathology methods developed specifically to teach language skills needed in school and in life. A step-by-step "how-to" manual with 400 pages of instructions, explanations, examples, games, and cards will attack any language weaknesses common to children with pervasive developmental disorders. This book should be introduced once the child has learned one and two-word sentences, has some basic vocabulary, and can answer simple "what" or "where" questions from a picture book. The various activities in this book are appropriate for children from kindergarten through the teenage years, with simple adaptation for cognitive level.
Teach Me Language, Companion Exercise Forms	Sabrina Freeman, Ph.D. & Lorelei Dake, B.A.	Book	Communication	A collection of exercise and drill forms which appear as examples in Teach Me Language, this book is photocopy-ready and makes it easier to track your child's or student's progress. This supplement is an extension of Teach Me Language and is only effective if used with the Teach Me Language manual which explains how and why the exercises and drills are done.
Teachers' Guides to Inclusive Practices: Behavioral Support	Rachel Janney & Martha E. Snell	Book	Strategies/Curriculum	In this easy-to-read manual, general and special education teachers, counselors, related services staff, and family members will gain insight into students' behaviors and discover fresh, proactive ideas on how to help them develop appropriate behavioral skills.
Teachers' Guides to Inclusive	Martha E. Snell & Rachel	Book	Strategies/Curriculum	This easy-to-use guide helps teachers form and maintain

Autism Outreach Project Resource Library: Books and Kits

TITLE	AUTHOR (S)	TYPE	CATEGORY	DESCRIPTION
Practices: Collaborative Teaming	Janney			effective collaborative teams that stimulate students' academic progress and promote positive social behavior. Educators will learn how to select team members, define the team's purpose and focus, schedule and preserve time for teaming, and facilitate smooth communication during team meetings.
Teachers' Guide to Inclusive Practices: Modifying Schoolwork	Rachel Janney & Martha E. Snell	Book	Strategies/Curriculum	The authors' easy-to-use model for adapting schoolwork for students with disabilities is a must-have for every educator in an inclusive classroom. Teachers of students in grades K-12 will use this book to learn about curricular, instructional, and alternative adaptations and decide when and how to implement them for students with a broad range of ages, disabilities, and learning needs.
Teachers' Guides to Inclusive Practices: Social Relationships and Peer Support	Martha E. Snell & Rachel Janney	Book	Strategies/Curriculum	This user-friendly guide for teachers offers proven models on how to build positive peer relationships and supportive ties between students in inclusive classrooms. Topics covered include creating a positive atmosphere, implementing support programs, peer problem solving, and establishing friendship groups.
Teachers' Guides to Inclusive Practices: Student-Directed Learning	Martin Agran, Margaret E. King-Sears, Michael L. Wehmeyer & Susan R. Copeland	Book	Strategies/Curriculum	In this book, educators will find step-by-step instructions for helping students with mild, moderate, or severe disabilities learn self-monitoring, self-evaluation, self-instruction, problem solving, goal setting, and other student-directed learning strategies.
Teaching and Mainstreaming Autistic Children	Peter Knoblock	Book	Strategies/Curriculum	This is a book about teaching autistic children in mainstreamed classrooms and schools. It is about teachers and parents working together to guarantee facilitative learning environments. Included are chapters on designing mainstreamed therapeutic environments, curriculum approaches, language and communication, developing support systems for families and schools, fostering positive attitudes toward children and teacher-child relationships, and evaluating children and programs.
Teaching Asperger's Students Social Skills Through Acting: All Their World's a Stage!	Amelia Davies	Book	Social Skills	Drawing both on her background in theatre and on her experience working with adults and children with autism, the author has developed a fun, easy-to-follow, step-by-step drama curriculum specifically for parents and professionals without backgrounds in acting.

Autism Outreach Project Resource Library: Books and Kits

TITLE	AUTHOR (S)	TYPE	CATEGORY	DESCRIPTION
Teaching Children with Autism - Strategies to Enhance Communication and Socialization	ed by Kathleen Quill	Book	Communication	This valuable book describes teaching strategies and instructional adaptations which promote communication and socialization in children with autism. Offered are specific strategies that capitalize on individual strengths and learning styles to support the children's exploration of the world of people. Discusses the treatment of social communication impairments in autism and related disorders; teaching principles and practices firmly based on applied research conducted during the previous decade; tables within chapters synthesizing information for the reader; appendices summarize assessment and intervention guidelines to assist the reader in implementing teaching strategies.
Teaching Children with Autism to Mind-Read: A Practical Guide	Patricia Howlin, Simon Baron-Cohen & Julie Hadwin	Book	Strategies/Curriculum	This book explores the relationship of "theory of mind" deficits to other areas of children's functioning and describes existing experimental work that has attempted to enhance the skills associated with understanding others' minds. The authors provide practical guidelines for helping children with autism spectrum conditions improve their understanding of beliefs, emotions and pretence.
Teaching Developmentally Disabled Children: The "ME" book	Ivar Lovaas	Book	Strategies/Curriculum	This book is aimed at teachers and parents to help developmentally disabled persons live more meaningful lives. Chapters include basic self-help skills, getting ready to learn, and language.
Teaching Individuals with Developmental Delays Basic Intervention Techniques	O. Ivar Lovaas	Book	Strategies/Curriculum	This book provides basic intervention techniques including chapters on basic concepts, transition into treatment, early learning concepts, expressive language, strategies for visual learners, programmatic considerations, and organizational and legal issues.
Teaching Kids & Adults With Autism: Building the Framework for Lifetime Learning	Kathleen McConnell Fad & L. Rozelle Moulton	Book/Kit	Strategies/Curriculum	This widely used strategy implemented in many classrooms focuses on facilitating students' learning by communicating with those students in several modes, not just through spoken language.
Teaching Your Child the Language of Social Success	Marshall P. Duke, Ph.D., Stephen Nowicki, Jr., Ph.D., & Elisabeth A. Martin, M.Ed.	Book	Communication	In this easy-to-use guide, the authors describe and explain the methods and rules of nonverbal communication. Through postures, gestures, facial expressions, and tone of voice, nonverbal messages contribute significantly to social, academic, and professional success. Now, parents and teachers can help children develop nonverbal skills so

Ten Things Every Child with Autism Wishes You Knew	Ellen Notbohm	Book	General Autism	that they will be able to communicate and interact with others more successfully. Offered are definitions and techniques for assessing a child's strengths and weaknesses in this area, as well as case studies, illustrations, and exercises for teaching or improving nonverbal skills at home or in the classroom.
Ten Things Your Student with Autism Wishes You Knew	Ellen Notbohm	Book	General Autism	Every parent, teacher, social worker, therapist, and physician should have this succinct and informative book in their back pocket. Framed with both humor and compassion, this book defines the top ten characteristics that illuminate the minds and hearts of children with autism.
That's Life! Social Language	Nancy McConnell & Carolyn LoGiudice	Book	Communication	In the unique perspective of a child's voice, this essential book helps teachers and parents understand the thinking patterns of children with autism spectrum disorders, shape an environment conducive to their learning style, and communicate with them in meaningful ways.
There's a Boy in Here: Emerging From the Bonds of Autism	Judy Barron & Sean Barron	Book	Personal Account	This program teaches students with language or learning disabilities how to be effective, appropriate communicators in a wide variety of situations. Based on research and training with students grades 6 through 11, the specific social language areas addressed in this program focus on the most important communication needs of middle school and high school students.
Think Social! A Social Thinking Curriculum for School-Age Students	Michelle Garcia Winner	Book	Social Skills	This book gives rare insight into the mind of an autistic child because of its totally unique perspective, having been written by a mother who remembers events experienced by her now-grown, recovered son, who remembers the same events as an autistic child.
				This curriculum documents how lessons are introduced at the author's Center for Social Thinking clinic. It demonstrates how to develop a social thinking vocabulary with which to teach children, parents, and teachers across the years. It starts with lessons on being part of a group and continues into self-monitoring behavior, development of language-specific skills, awareness of language meaning, and the development of imagination and wonder towards play/conversation.

TITLE	AUTHOR (S)	TYPE	CATEGORY	DESCRIPTION
Thinking About YOU, Thinking About ME	Michelle Garcia Winner	Book	Communication	Practical strategies, ideas, worksheets, and ready-to-use IEP goals make this book great for families and staff attempting to meet the needs of students with autism and Asperger's Syndrome. The intervention ideas are "innovative and practical for home and school use."
Thinking in Pictures: My Life with Autism	Dr. Temple Grandin	Book	Personal Account	An amazing story about a remarkable woman. Here, in Temple Grandin's own words, is the story of what it is like to live with autism, to be among the few people who have broken through many of the neurological impairments associated with autism. She describes her painful isolation growing up "different" and her discovery of visual symbols to interpret the "ways of the natives." Also gives information from the front lines of autism, including treatment, medication, and diagnosis.
This is Asperger Syndrome	Elisa Gagnon & Brenda Smith Myles	Book	Children's Book	Experience the world from the perspective of a young child with Asperger Syndrome. This book is a wonderful educational resource that can be used in the classroom. It helps develop an awareness and understanding for children with AS and their peers.
Thorn in My Pocket, A	Eustacia Cutler	Book	Personal Account	This book is the author's story of raising her autistic daughter, Temple Grandin, in the conservative world of the fifties, a time when autistic children were routinely banished to institutions. She tells of her fight to keep Temple in the mainstream of family, community and school life and how Temple responded and went on to succeed, becoming a university professor and perhaps the most famous person with autism in the world.
Through A Mother's Eyes...A View of Autism	Mary Anne Coppola	Book	Personal Account	A series of articles that chronicle the life of a boy with high-functioning autism from early childhood to age 24.
Through the Eyes of Aliens: A Book About Autistic People	Jasmine O'Neill	Book	Personal Account	Written by an autistic savant, Jasmine gives her feelings a voice through her pen. This book contains a wealth of insight into the autistic world and she truly believes that the autistic person should be accepted and celebrated and not "therapied to death." While no new information is presented, this book is a great read especially for family, friends, and professionals who truly want to understand the world of autism. It is also a great source of inspiration to other autistic people.

Tobin Learns to Make Friends	Diane Murrell	Book	Children's Book	Tobin, a train, teaches social skills to children without their being aware of the educational impact. The super colorful illustrations and the dialog between the conductor and Tobin make this book great to read out loud.
Toilet Training for Individuals with Autism and Related Disorders	Maria Wheeler	Book	Strategies/Curriculum	A guide that provides over 200 toilet training tips as well as case studies. Information is presented in a straightforward manner that parents will appreciate.
Toilet Training in Less Than A Day	Nathan Azrin & Richard Foxx	Book	Strategies/Curriculum	Two noted specialists have developed this training method that - for the average child - requires less than four hours.
Toileting	Nancy Dalrymple & Margaret Boarman (Indiana Resource Center for Autism)	Booklet	Strategies/Curriculum	Self-care in toileting is one of the areas that persons with autism frequently have difficulty in managing, and they are often confused by training. This booklet discusses issues and strategies of teaching independent, socially acceptable toileting skills.
Too Loud, Too Bright, Too Fast, Too Tight: What to Do If You Are Sensory Defensive in an Overstimulating World	Sharon Heller, Ph.D.	Book	Sensory	This clear and comforting book, written by a developmental psychologist with sensory defensiveness herself, discusses her own successful therapy and how it transformed her life. Included are an overview of the condition; treatment options including diet, medication, and relaxation techniques; and a comprehensive resource guide listing books, articles, videos, and websites on sensory defensiveness, sensory integration, and auditory integration.
Too Smart for Bullies	Deputy Sheriff Robert Kahn & Sharon Chandler	Book	Children's Book	This book is a Children's Safety Book which talks about bullies in a story format and provides positive learning tools to discuss after reading the book.
Treasure Chest of Behavioral Strategies for Individuals with Autism, A	Beth Fouse, Ph.D. & Maria Wheeler, M.Ed.	Book	Strategies/Curriculum	This book is a resource manual that applies theory and best practices in behavior management to individuals with autism. Parents and educators will find this an easy reference for using behavioral interventions with individuals with autism.
Trevor Trevor	Diane Twachtman-Cullen	Book	Children's Book	This unique children's book is designed to be read to children by adults. Trevor is a child whose characteristics and problems in social relationships suggest a form of autism or pervasive developmental disorder. Through the efforts of a caring teacher, Trevor's classmates come to notice his strengths rather than his differences.
Ultimate Stranger, The: The Autistic	Carl Delecató	Book	General Autism	The author's thesis is that autism is neuro-genic and not

TITLE	AUTHOR (S)	TYPE	CATEGORY	DESCRIPTION
Child				psycho-genic in origin. Presents many suggestions for parents to evaluate and to treat the problems of autism at home.
Ultimate Treasure Hunt, The: Finding the Child Inside	Adair Renning	Book	Personal Account	In this book, Adair Renning details her family's search for effective treatments for their daughter with autism, including auditory integration therapy, food and environmental allergy treatments and mega-vitamins. This is one family's story representing a celebration of the strength of the human spirit when faced with seemingly insurmountable odds.
Uncommon Fathers: Reflections on Raising a Child With a Disability	ed by Donald Meyer	Book	Family Issues	A compelling collection of essays by fathers who were asked to reflect and write about the life-altering experience of having a child with a disability. Nineteen fathers have taken an introspective and honest look at this deeply emotional subject, offering a seldom-heard perspective on raising children with special needs.
Under the Big Umbrella: The Underground Guide to the Pervasive Developmental Disorders	Steven E. Gustein, Ph.D. & Rachelle K. Sheely, Ph.D.	Book	General Autism	This short manual originally designed for parents of newly diagnosed children with Pervasive Development Disorders is a great tool for anyone. This manual gives a good overview of the autism spectrum disorders including what to do after the initial diagnosis, goals of treatment, and characteristics of effective and ineffective programs.
Understanding and Teaching Children with Autism	Rita Jordan & Stuart Powell	Book	Strategies/Curriculum	This book relates current findings concerning autism to the context of home and school, based on the premise that effective teaching must be rooted in understanding.
Understanding Asperger's Syndrome: Fast Facts	Emily L. Burrows & Sheila J. Wagner	Book	High Funct/Aspergers	The purpose of this guide is to help educators become acquainted with identifying and meeting the needs of students with Asperger's Syndrome.
Understanding Autism for Dummies	Stephen M. Shore, MA & Linda G. Rastelli, MA	Book	General Autism	This useful guide is designed to provide accessible, practical, user-friendly information in a format that is easy to navigate and follow. Discover how to: find and work with autism specialists; create and help manage an effective educational plan for your child; enhance communication and social skills; evaluate treatment options; explore other helpful autism resources.
Understanding Other Minds: Perspectives From Developmental Cognitive Neuroscience, 2nd edition	ed by Simon Baron-Cohen, Helen Tager-Flusberg, & Donald Cohen	Book	Research	Like the first edition, this completely updated and revised text still focuses on the "theory of mind" hypothesis--an important new psychological approach to autism-- and

Autism Outreach Project Resource Library: Books and Kits

TITLE	AUTHOR (S)	TYPE	CATEGORY	DESCRIPTION
Understanding Rett Syndrome: A Practical Guide for Parents, Teachers, and Therapists	Barbro Lindberg	Book	General	provides an invaluable discussion about the nature of what is widely recognized as the most severe childhood psychological disorder. But it provides expanded coverage of evolution and new sections on infancy, neurobiology, and cognitive neuroscience.
Understanding the Nature of Autism: A Practical Guide	Janice Janzen	Book	Program Design	Looks at the total child from the psychological and educational aspects and offers an explanation for why these children have difficulty with sensory impressions, etc. and how it affects their lives. Imparts understanding and approaches treatment with a very practical point of view.
Unraveling the Mystery of Autism and Pervasive Developmental Disorder: A Mother's Story of Research & Recovery	Karen Seroussi	Book	Personal Account	This is an excellent resource for parents and educators. This book provides straightforward information used to develop curriculum and programs for children with autism. Clearly organized and containing numerous case studies as examples and reproducible record keeping forms.
Until Tomorrow: A Family Lives With Autism	Dorothy Zeitz	Book	Personal Account	When Karyn's 19-month old son was diagnosed with autism, she and her husband fought back with love and research. Believing their son's immune system prevented his digestive system from breaking down certain proteins which they felt was greatly responsible for their son's autism, they tried and tested theories at home and at a lab where Karyn's husband is a scientist. This book is the result of their efforts, listing explanations and treatments plus other tools and hands-on information for other parents interested in improving their autistic child's life through diet and other treatments.
Unwritten Rules of Social Relationships: Decoding Social Mysteries through the Unique	Dr. Temple Grandin & Sean Barron	Book	Social Skills	A moving story that accurately depicts many reactions and feelings that families of handicapped children often experience. It is a loving, caring story marked by occasional episodes of hate, shame, rage, self-blame and self-pity. It portrays the way in which these emotions develop and become an integral part of all family relationships. It also traces, in some detail, a mother's day-to-day hopes and fears, confusion and feelings of rejection as she attempts to teach her child the things that most children learn with little difficulty.

Perspectives of Autism				working with others and illustrate their infinite applications, in even the most complex situations.
Views from Our Shoes: Growing Up With a Brother or Sister With Special Needs	ed by Donald Meyer	Book	Children's Book	Gr. 4-6. Although the number of books about disabled children has grown steadily, not many nonfiction books explore the feelings of a disabled child's brother or sister. These unpretentious, honest snippets, contributed by 45 children ranging in age from 4 to 18, seek to fill that gap. In talking about their sibs and their feelings, the writers admit to embarrassment ("I'm sure glad he doesn't go to my school . . . if they find out that he's my brother, they'd laugh"), anger, and jealousy. But at the same time, they show how protective and loving and surprisingly wise they are when it comes to getting along in a family that is different. Black-and-white sketches are scattered through the text, and a glossary of medical conditions and a helpful list of support sources are appended.
Visual Recipes: A Cookbook for Non-Readers	Tabitha Orth	Book	Family Issues	This unique cookbook, aimed at addressing the needs of individuals with autism and other developmental disabilities, uses clear photographs and easy-to-follow directions to allow independence in the kitchen. Included are steps to prepare basic, familiar foods; oatmeal, toast, bologna sandwiches, hot dogs, tater tots, sliced apples, hot chocolate, and more. Short, concrete written directions accompany each visual step, although a non-reader can follow the recipes as well.
Visual Strategies for Improving Communication	Linda Hodgdon	Book	Communication	This valuable new book describes strategies to enhance communication interactions for students who experience autism and other moderate to severe communication disorders. This is a "how-to" book, designed to assist teachers, speech-language pathologists, and parents in devising solutions to the communication and self-management challenges that are common to these students. Full of examples and illustrations, this book describes specific strategies that capitalize on the visual strengths and learning style of this population.
Visual Supports for People with Autism: A Guide for Parents & Professionals	Marlene J. Cohen, Ed.D., BCBA & Donna L. Sloan, M.A., BCBA	Book	Strategies/Curriculum	A complete, easy-to-understand guide to using visual aids for teaching academic, daily living, and self-help skills.
Volcano in My Tummy, A: Helping	Elaine Whitehouse &	Book	Behavior	An accessible resource for teachers, parents, and all who

Autism Outreach Project Resource Library: Books and Kits

Children to Handle Anger	Warwick Pudney			care for children, this book is full of stories, and easy-to-use games and exercises designed to encourage children 6 to 15 years old to see their anger and to deal constructively with it. Includes sections on key concepts, building a child's self esteem, what adults can do, developing an anger management program, troubleshooting, and a special section for teachers that integrates the resource with other curriculum areas.
Way I See It, The: A Personal Look at Autism & Asperger's	Temple Grandin, Ph.D.	Book	General Autism	In this book, Temple Grandin gets down to the REAL issues of autism. She offers helpful do's and don'ts, practical strategies, and try-it-now tips, all based on her "insider" perspective and a great deal of research.
Way to A, The: Empowering Children with Autism Spectrum and Other Neurological Disorders to Monitor and Replace Aggression and Tantrum Behavior	Hunter Manasco, M.S., CCC-SLP	Book	Behavior	This book, designed for children ages 3 to 9 years old, presents a simple, logical, and systematic strategy that clarifies and teaches the child how to manage his behavior. The flowchart at the end of the book can be used for the student to review his/her behavioral situations in a visual and positive way.
What About Me? Growing Up With a Developmentally Disabled Sibling	Siegel & Silverstein	Book	Family Issues	A collection of stories about living with a handicapped sibling - has a strong autism presence, but applies to siblings with all types of handicaps.
What Autism Means to Me	Caspian Banki & Lynne Banki	Book	Children's Book/Family Issues	This book, written by a child with autism with "a little help from his mom" is a heartwarming look into the world of an autistic child. He does a great job of expressing himself and providing his peers with a window into his world.
What is Asperger Syndrome, and How Will It Affect Me? A Guide for Young People	Martine Ives of the NAS Autism Helpline	Book	High Funct/Aspergers	This book, from the National Autistic Society (NAS) of Great Britain, is a wonderful guidebook written for young people experiencing Aspergers syndrome. In clear and concise language, the book provides tips and answers to questions young people might have.
What's Next? Preparing the Student with Autism or Other Developmental Disabilities for Success in the Community	Carol Gray	Book	Transition/Vocation	This manual will help parents, professionals, and students coordinate efforts and develop curriculum to improve the chances for success in the future. Chapters include habits of success as an educational outcome, the evaluation system, environmental assistance, and social assistance and social reading.

TITLE	AUTHOR (S)	TYPE	CATEGORY	DESCRIPTION
When a Brother or Sister is Autistic: Everything You Need to Know	Marsha Sarah Rosenberg	Book	Family Issues	faces to feelings. The poster-size chart of the book's emotions is an invaluable teaching tool. This book, written for readers in grades 5-9, provides a brief overview of autism and its characteristics, information on diagnosis and treatment, and devotes several chapters to sibling issues.
When Autism Strikes: Families Cope With Childhood Disintegrative Disorder	Robert Catalano	Book	Family Issues	About the rare and mysterious pervasive developmental disorder known as Childhood Disintegrative Disorder (or Heller's Syndrome), in which children lose previously acquired skills and develop the symptoms of autism after several years of apparently normal development. With an introduction by autism expert Fred Volkmar, the book presents the stories of eight families of children with CDD, including the editor's own son Thomas, and Jordan Schulze (the subject of his father Craig's book "When Snow Turns to Rain"), as they struggle to cope with and find an explanation for their children's devastating regression.
When I'm Away From Home	Jean Camis	Book	Family Issues	A workbook designed to provide specific information about the individual care requirements of a disabled child for anyone responsible for them. It includes a description of the child's medical and physical needs, their daily routine and a section which they can fill in themselves about their personality, preferences, and habits. This workbook will benefit everyone involved: it will be an invaluable resource for the caregiver; the child, who may find understanding and adapting to change particularly difficult, will benefit from the continuation of their everyday routine; and it may help to alleviate the anxieties of a parent or caregiver when they entrust their child into someone else's care.
When My Autism Gets Too Big! A Relaxation Book for Children with Autism Spectrum Disorders	Kari Dunn Buron	Book	Children's Book	The first of its kind, this child-friendly how-to manual teaches relaxation techniques to children with autism spectrum disorders. Written to help children, parents, and teachers understand about the anxiety experienced by children with autism spectrum disorder and offers some suggestions about how the child might recognize 'anxiety' (autism too big) and what he or she might do.

Without Reason: A Family Copes with Two Generations of Autism	Charles Hart	Book	Personal Account	<p>experienced by children with autism spectrum disorders and offers some suggestions to develop self-calming techniques.</p> <p>Without Reason is Charles Hart's deeply personal, authoritative first-person probe of autism and its effects on his family. He takes us through his childhood with an autistic brother who needed constant care, to his scholarship education at Harvard, his own family of better circumstance, and the autism of his son Ted. Charles Hart understands autism as few others can and thus offers the reader an intimate view of a family's struggle, not for a cure but for understanding and accommodation of people disabled by autism.</p>
Who Took My Shoe? Discovering Who, What, Where, When, Why and How	Karen Emigh	Book	Children's Book	<p>This book helps children understand the "who", "what", "where", and "when" questions often difficult for children with special needs to understand. Beautifully and colorfully illustrated, the book is entertaining for all children but educational for those who don't easily understand abstract concepts.</p>
Why Does Chris Do That?	Tony Attwood	Book	General Autism	<p>This useful and readable book examines the problems of people with high functioning autism and Asperger syndrome. It offers a better understanding of the unique difficulties associated with autism and an explanation of how these cause unusual behavior, as well as helpful and useful advice.</p>
Work in Progress, A: Behavior Management Strategies and a Curriculum for Intensive Behavioral Treatment of Autism	ed by Ron Leaf & John McEachin	Book	Strategies/Curriculum	<p>This book is the latest material that provides a program based on Applied Behavior Analysis (ABA). The authors offer a comprehensive manual for parents and professionals who want to utilize ABA to teach new skills and behaviors to their children or students. Sections include behavior problems and management, toilet training, eating and sleep problems, and play and social skills. Effective implementation of an ABA program and how to evaluate progress is also explained.</p>
Worksheets! for Teaching Social Thinking and Related Skills	Michelle Garcia Winner	Book	Social Skills	<p>The purpose of this book is to provide parents and educators with ways to explore breaking down abstract social thinking concepts into concrete ways for students to work on them in individual sessions or as part of a larger group. The lessons are organized into categories that</p>

				include friendship, perspective taking, self-monitoring, being part of a group, effective communication, making plans to be with others, problem solving, and more.	
World of the Autistic Child, The	Bryna Siegel	Book	General Autism	This book is about understanding the diagnosis of autism, the available treatments, and how to decide what is best for a particular child with autism or PDD. Straightforward and sympathetic, Dr. Siegel guides readers through the thicket of symptoms and labels, explaining the needed information on the latest educational and medical advances. A superb guide and resource that no one who cares about autistic or developmentally disabled young people will want to be without. Chapters include behavior management, education, adult years, family issues, and more.	
Writing Social Stories with Carol Gray	Carol Gray	Kit	Social Skills	This video and accompanying workbook provides step-by-step training; teaching others to write Social Stories. The workshop also shares an insight into the perspective of people with ASD that is central to all of the social understanding strategies developed by Carol Gray. (2 videos and workbook)	
You are a Social Detective! Explaining Social Thinking to Kids	Michelle Garcia Winner & Pamela Crooke	Book	Social Skills	Every one of us is a Social Detective. We are good Social Detectives when we use our eyes, ears, and brains to figure out what others are planning to do next or are presently doing and what they mean by their words and deeds. This entertaining comic book offers different ways that can be reviewed repeatedly with students to teach them how to develop their own social detective skills.	New
You're Going to Love This Kid! Teaching Students with Autism in the Inclusive Classroom	Paula Kluth	Book	Strategies/Curriculum	A practical guide to understanding students with autism and including them fully in the classroom. Brings to life a learner-centered, mutli-dimensional, out of the box perspective for effectively educating kids with autism, their peers and their teams.	
Your Life is Not a Label	Jerry Newport	Book	General Autism	Written by a man who discovered his diagnosis of Asperger's Syndrome late in life, this book offers an encouraging, insightful and practical guide on everything from dating, money, driving, traveling, living independently, jobs, and humor.
