

Michelle Garcia Winner

presents

Social Thinking Across the Home and School Day Assessment and Core Treatment Strategies

**Two Days of Core Instruction on Practical Strategies for
Assisting Individuals with High-Functioning Autism, Asperger
Syndrome, ADHD, Nonverbal Learning Disorder (NLD),
PDD-NOS and Other Social-Communicative Challenges**

Michelle Garcia Winner, MA, CCC, is a Congressional award-winning clinician, author and workshop presenter who developed the Social Thinking curriculum. The *Journal of Autism and Developmental Disorders* has published research supporting Michelle's practical assessment and treatment strategies. Her work regarding social thinking has provided a basis from which instructional programs are developed across the U.S. and internationally, influencing a range of professions: education, counseling, speech-language therapy and others.

Target Audience: Parents, Educators, Paraprofessionals, Administrators, Speech-Language Pathologists, Psychologists, Therapists, and other Caregivers and Family Members of Students with Social-Communicative Challenges
