

Guidance for School District Personnel Receiving Pre-K K Transition Reports

[Pre-K K Transition Reports](#) are completed by many dedicated preschool teachers around our five county region for the purpose of sharing their deep knowledge of the incoming Kindergartners with their new school district teachers. These reports are best utilized by the Kindergarten team for **placement (when timing allows) and/or by building administrators and teachers in preparing for meeting the needs of these students prior to the start of school.**

Please **be on the lookout** for these reports in the spring and early summer. Be prepared to **distribute them as soon as possible** to building leaders, teachers or teaching teams. They will be mailed to you directly from your preschool partners.

Feel free to **reach out with any questions** and/or concerns that you may have.

Thank you all for your help in coordinating this important resource for early learning connections! We believe that the incredible kindergarten teachers in our region and their next class of young students will benefit greatly from this collaborative effort!

In partnership,

Maureen Hodge

P-3 Early Learning Coordinator
