Washington State Laws Governing Asthma Care in Schools

RCW [28A.210.320](#) -Children with life-threatening health conditions-Medication or Treatment orders-Rules.

Requires that All children with life threatening health conditions (A health condition that will put the child in danger of death during the school day if a medication or treatment order and a nursing plan are not in place.) have:

- A medication or treatment order in place on or before the child's first day of attendance at school.
- The chief administrator of every public school shall prohibit the further presence at the school for each child for whom a medication or treatment order has not been provided.

- The superintendent of public instruction in consultation with the state board of health shall adopt rules that establish the procedural and substantive due process requirements governing the exclusion of children from public schools.

RCW [28A.210.260](#)- Public and private schools-Administration of medication - Conditions.

Law listing the requirements for medication administration in schools

[RCW 28A.210.370](#) -Students with Asthma

Requires that school districts:

- provide in-service training on asthma for school personnel
- adopt policies for asthma rescue
- allow students to carry and self-administer prescribed medication to treat asthma and severe allergic reactions.
